BOYD NURSERY CO.,

McMinnville, Tenn.

Forest and Shade Trees, Ornamental Shrubs, Evergreens and Roses

ALTHEA, ROSE OF SHARON

Unsurpassed by anything in the hardy shrub line for freedom of bloom or range of color. From midsummer until frost, when few other shrubs are in bloom, the Althea is most handsome, with its large camelia-like flowers of the most varied and beautiful shades. White, pink, red, purple, variegated.

Shake Hands With Us

An Evergreen Planting

Now is the time to plant Nursery Stock. The uncertainties regarding the future have been swept away with a returning prosperity and to be in tune with the march of time landscaping the home is part of the duty of every citizen. The government through the National Housing Act is offering home owners many millions to rebuild, redecorate and improve their home and pay for it in monthly installments, and nothing else you can do will make a house into a lovely home quite as much as its proper planting.

The Boyd Nursery Company has been in existence for many years and in a location universally accepted as an ideal one to grow fine plants and shrubs that will prove hardy in every kind of a location. We do not employ agents but give our customers the best possible service, and if mistakes are made, which is always possible, we are ready and glad to rectify them. We do not do landscaping but can refer you to competent men in that line if their services are required. We devote all our time and energy in growing the best possible Nursery Stock and selling it at the lowest possible price and trust that we may be of service to you.

This catalog quotes prices only upon the smaller sizes of shrubs. We have larger sizes in stock and will be glad to quote special Bargain Prices on them if interested.

Yours for the Home Beautiful,

THE BOYD NURSERY COMPANY

Growers of

Fruit and Shade Trees, Ornamental Shrubs, Evergreens and Roses

OUR GUARANTEE: We are very careful to keep each variety true to name as labeled, and are ready at any time to replace, upon proper proof, any that may prove otherwise.* We do not guarantee continued growth. Remember—a tree, shrub or plant is a living organism, as much as a cow, horse or man. It breathes, drinks and feeds, and is liable to attacks of disease and insects. At prices we sell, it is impossible to guarantee growth.

CLAIMS: Claims, to receive consideration, must be made within ten days after receipt of goods. We use every care to secure prompt deliveries, but we are not liable for delay or damage in transit. Our responsibility in this respect ends upon delivery in good order to transportation company; but we will gladly render all the aid we can in case claim becomes necessary. If delayed, or lost on the road, notify us and we will do all possible to get it through, or collect claim.

TERMS: Cash with order, except to persons who satisfy us as to their responsibility. Remittance may be made by bank draft, postal or express money order. Never send loose currency in envelope. Five plants at 10 rates; fifty at 100 rates.

DISCOUNTS: 10 per cent discount from list prices if cash order is received any time between now and November 10th. 3 per cent allowed on all cash orders. Orders shipped C. O. D. if one-fourth cash accompanies order. Take advantage of these special discounts for cash and promptness in ordering.

PACKING: All plants are carefully packed to prevent drying or freezing, while in transit. All packing charges are included in catalogue price.

SHIPPING: We usually begin digging and shipping nursery stock about October 10th, and with slight interruptions during the bad weather, we ship all winter, up to May 15th. We prefer shipping by express, CUSTOMER TO PAY THE CHARGES. Light packages may go by parcel post; add 15 per cent to your order to cover this. All plants are sold F. O. B. McMinnville, Tennessee. CUSTOMERS ARE TO PAY ALL TRANSPORTATION CHARGES.

IN ORDERING: Please give plainly the name, post office and State. Always tell us how you want goods to come, and name your express or freight station, otherwise we will forward according to our best judgment.

LOCATION: McMinnville is located in Middle Tennessee on N. C. & St. L. Railroad. It is located on State Highways No. 1, No. 55 and No. 56, and U. S. Highway No. 70, and the Broadway of America. Nurseries and office located three-fourths mile west of square, on new Manchester Pike Highway No. 55-A. Visitors always welcome.

Certificate of inspection will be sent with each shipment.

We are members of the American Association of Nurserymen.

REFERENCE: Dun's or Bradstreet's, any bank or business house in McMinnville.

Ornamental Flowering Shrubs

Add Beauty, Charm and Color to the Home Grounds and Garden

The Ornamental, Hardy Flowering Shrub group includes all those deciduous, blooming and berry-bearing woody plants that are ordinarily called shrubs. They naturally cover a wide range as to size, from very low-growing plants to those that are tall enough for screens and windbreaks. In color of blossom, character of growth, adaptability to soil, you will find something suited for every location. They will put the finishing touches to your home grounds.

Prices are quoted only on small and medium sized shrubs, but our Nurseries contain larger plants and Bargain Prices will be quoted on application.

ALMOND, *Amygdalus*—Dwarf double Pink Flowering Almond. Small shrubs whose upright branches are literally covered their entire length in earliest spring before the leaves appear, with blooms like small roses. Plant for early bloom. 12 to 18 inch, branched, 20c each, \$1.50 per 10; 18 to 24 inch, branched, 30c each; \$2.50 per 10.

ALTHEA, Rose of Sharon—Ideal flowering shrubs because they are filled with bloom during the hot, dry season, when flowers are scarce. They grow readily and bloom freely in all soils and situations. We can supply the following varieties, heavy, nice well branched plants:

Anemonaeflorus—Large, double red.
Amplissima—Double rosy-red, blooming early.
Ardens—Double purplish blooms.
Boule de Feu—Fine double red.
Bicolor—Double white with red markings.
Joan of Arc—Pure white and very double.
Pulcherimus—Flowers of variegated tints.
Lady Stanley—White shaded to rose.
Paeoniflorus—White with carmine center.
Rubis—Single pink.
Totus Alba—Single white.

12 to 18 inch 15c each; \$1.00 per 10; 18 to 24 inch 20c each; \$1.25 per 10.

ALTHEA (Rose of Sharon)—Grown from seeds and are single mixed colors of bloom. They are beautiful seedlings, will make a fine hedge, and you can afford them at these bargain prices. 12 to 18 inch \$1.00 per 50; \$6.00 per 500; 18 to 24 inch \$1.50 per 50; \$10.00 per 500.

MALLOW MARVELS (*Hibiscus*)—An attractive perennial, growing 5 to 6 feet. Thrives in any soil, but prefers moist location. A very desirable plant where continuous bloom is wanted. Single flower. Two year roots, mixed color 15c each; \$1.00 per 10.

ARALIA PENTAPHYLLA—Strong growing, makes a small tree in time. Abundant foliage of rich, glossy green. Grows in most difficult situations. 18 to 24 inch, 20c each; \$1.50 per 10.

ARONIA (Chokeberry)—A perfectly hardy shrub with attractive sage green foliage, coloring to vivid red in fall. The small white flowers are followed by berries. Prefers a moist location. We can furnish both the *Arbutifolia*, with red berries, and the *Melanocarpa*, with black berries. 12 to 18 inch 20c each, \$1.50 per 10; 18 to 24 inch 25c each, \$2.00 per 10.

Buddleia, Butterfly Bush

BERBERIS THUNBERGI (Japanese Barberry)—Dwarf growing, bushy and rounded in form, with small green leaves densely covering the thorny twigs. Scarlet or bronze in autumn, studded with crimson berries. Splendid for hedges or massing. Healthy, hardy and grows anywhere, in any soil. 12 to 18 inch 15c each, \$1.25 per 10, \$10.00 per 100; 18 to 24 inch 25c each, \$2.00 per 10, \$15.00 per 100.

BERBERIS THUNBERGI ATROPURPUREA (Red Leaved Barberry)—Popular for grouping, edging taller plantings and evergreens. Foliage is a rich, bronzy red, changing in autumn to more vivid hues of orange and red, with scarlet berries. Unequaled in coloring by any other shrub. 12 to 15 inch 30c each, \$2.50 per 10; 15 to 18 inch 40c each, \$3.50 per 10.

BUDDLEIA VARIABILIS MAGNIFICA (Butterfly Bush or Summer Lilac)—Blooms continuously all summer. Long cylinder-like panicles of bloom, beautiful purple lilac in color, having a pleasing fragrance which attracts scores of butterflies. 18 to 24 inch 15c each, \$1.25 per 10; 2 to 3 feet 25c each; \$2.00 per 10.

CALICARPA AMERICANA (Beautyberry)—The berry-bearing plants are becoming more and more popular. Pink tinted blossoms appear in August, followed by clusters of purple berries, which make this shrub attractive in fall and winter. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

CALYCANTHUS (Sweet Shrub)—An old-fashioned shrub, that blooms intermittently all summer, and the odd, chocolate-colored flowers are spicily fragrant. The glossy green leaves and reddish-brown shoots give it a very striking appearance. 12 to 18 inch 20c each, \$1.50 per 10; 18 to 24 inch 30c each, \$2.50 per 10.

CLETHRA ALNIFOLIA (Sweet Pepperbush)—A handsome dwarf shrub, sturdy and compact. Leaves dark green, fading to yellow tones; flowers creamy white and fragrant. 18 to 24 inch 35c each, \$3.00 per 10; 2 to 3 feet 45c each, \$4.00 per 10.

Japanese Barberry

Cornus Paniculata

COMPTONIA ASPLENIFOLIA (Sweet Fern)—A low shrub with fern-like, fragrant foliage, well adapted for massing on rocky banks and sandy stretches. 12 to 18 inch 25c each, \$2.00 per 10; 18 to 24 inch 35c each, \$3.00 per 10.

CORNUS (Shrub Dogwood)—Valuable for brilliancy of bark and berries. All varieties do well in shade. The autumn fruits call in a welcome assemblage of birds; and the tangled mass of highly colored twigs enliven the somberness of winter.

Amomum (Silky Dogwood)—Has striking red bark. Small white flowers in June are followed by blue berries.

Lutea (Yellow-twigged Dogwood)—Golden-yellow branches afford quite a contrast to the other varieties.

Paniculata (Grey-stemmed Dogwood)—Small white flowers, followed by white berries. Leaves are narrow and green, turning to a reddish purple in the fall.

Sanguinea (Red-twigged Dogwood)—Deep purplish red branches. Leaves dark green, paler beneath.

Siberica (Coral Dogwood)—Branches bright red.

Stolonifera (Red Ozier Dogwood)—Bright red bark and small white berries lasting into winter. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

CORALBERRY (Red Snowberry) *Symphoricarpus Vulgaris*—Graceful shrub; flowers light pink, followed by clusters of red berries which remain on the branches until late in the winter. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 30c each, \$2.00 per 10.

COTONEASTER ACUTIFOLIA (Peking Coton-easter)—An attractive, beautifully formed shrub with thick, glossy leaves, turning to red in the fall. Small white flowers in early summer, followed by large black berries. Perfectly hardy; grows 8 to 10 feet. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

GRAPE MYRTLE (*Lagerstroemia*)—The most popular and most characteristic of Southern shrubs. Of upright, open habit, with small, dark green foliage and large clumps of beautiful lace-like flowers throughout the summer. We offer crimson, pink and white. 12 to 18 inch 25c each, \$2.00 per 10; 18 to 24 inch 35c each, \$3.00 per 10.

CYDONIA JAPONICA (Japanese Quince)—One of the most brilliant flowering shrubs, covered with dazzling scarlet flowers very early in the spring. Bright green glossy leaves and spreading compact branches. 12 to 18 inch 25c each, \$2.00 per 10; 18 to 24 inch, 35c each, \$3.00 per 10.

DEUTZIA—One of the most desirable shrubs. Though varying in height and habit, they bloom alike in dainty bell-shaped flowers. Will thrive in almost any situation.

Candidissima—Upright growing; fine foliage and pure white double flowers.

Crenata—Covered in summer with light pink, fragrant flowers.

Fortunei—Erect branches with broad, dark-green leaves; pink flower.

Pride of Rochester—Blossoms before any of the other varieties; large semi-double white flower with outer petals tinged with pink.

12 to 18 inch 15c each, \$1.25 per 10; 18 to 24 inch 25c each, \$2.00 per 10.

DEUTZIA GRACILIS—Dwarf, slender-growing. The drooping branches are wreathed with pure white flowers in late spring. 12 to 18 inch 35c each, \$3.00 per 10; 18 to 24 inch 50c each, \$4.00 per 10.

ELDER (*Sambucus*)—Tall and broad-growing berryed shrubs largely used for their beautiful leaves, immense flower cymes, and showy fruits.

Canadensis (American Elder)—A tall showy shrub. Large flat clusters of white fragrant flowers, followed by luscious black fruits—the source of Mother's "Elderberry pie."

18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

Nigra Aurea (Golden Elder)—Useful in large shrub groupings and for screening. Its golden yellow leaves contrast beautifully with the other shrubs. 18 to 24 inch 30c each, \$2.50 per 10; 2 to 3 feet 40c each, \$3.00 per 10.

EUONYMUS ALATUS (Cork-bark *Euonymus*)—Showy shrub, sometimes called "Winged Burning Bush." Corky winged branches; red and crimson leaves in autumn. Fine for solitary plantings or massing. 2 to 3 feet 50c each, \$4.00 per 10; 3 to 4 feet 65c each, \$5.00 per 10.

EUONYMUS AMERICANUS (Strawberry Bush)—An upright shrub, with attractive foliage and reddish flowers. The rich pink fruits are concealed in scarlet pods, very showy. 18 to 24 inch 15c each, \$1.00 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

EXOCHORDA GRANDIFLORA (Pearl Bush)—A beautiful Chinese shrub with sprays of star-shaped, pure white flowers in May and good foliage throughout the season. Early buds look like pearls. 18 to 24 inch 30c each, \$2.50 per 10; 2 to 3 feet 45c each, \$4.00 per 10.

FORSYTHIAS (Golden Bell)—Somehow the Forsythias tell us spring is here more than any other of the blooming shrubs, for the delicate yellow flowers definitely belong to that season and no other. They are beautiful when planted against a background of evergreens, or when used in a group.

Fortunei—Dark green foliage; golden-yellow flowers.

Intermedia—Slender, arching branches; vigorous grower. Bright yellow blossoms.

Suspensa—Long curving branches covered with golden yellow flowers in the spring.

Viridissima—More bushy shrub than other varieties. Foliage rich green, and it blooms somewhat later than others.

18 to 24 inch 15c each, \$1.25 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

Forsythia

HYDRANGEA ARBORESCENS (Common Wild Hydrangea)—Similar to the *Arborescens Grandiflora*, only that the clusters of white flowers are smaller. Very hardy. 18 to 24 inch 15c each, \$1.00 per 10; 2 to 3 feet 20c each, \$1.50 per 10.

HYDRANGEA ARBORESCENS GRANDIFLORA (Hills of Snow)—A beautiful and very showy shrub. Large white blossoms, resembling the common snowball, but larger. Very decorative in a border.

HYDRANGEA PANICULATA GRANDIFLORA (Pee-Gee)—One of the most popular of all shrubs, with its broad, pyramidal panicles of flowers. Creamy white, turning in the late summer to pink.

Prices above varieties: 12 to 18 inch 25c each, \$2.00 per 10; 18 to 24 inch 35c each, \$2.50 per 10.

OAK LEAF HYDRANGEA (*Quercifolia*)—The foliage is similar to an oak leaf, rich deep green in summer and claret color in the fall. Large clusters of pure white flowers in mid-summer. 2 to 3 feet 40c each, \$3.50 per 10.

HYPERICUM (St. John's Wort)—A beautiful dwarf shrub, of compact habit. The flowers are like single yellow roses and are produced in great profusion. 12 to 18 inch 20c each, \$1.50 per 10; 18 to 24 inch 25c each, \$2.00 per 10.

JASMINUM (*Jasmine Officinale*)—A graceful, vine-like shrub. The small dark glossy leaves and fragrant star-shaped flowers make a pleasing effect. One year plants 25c each, \$2.00 per 10; Two year plants 35c each, \$3.00 per 10.

KERRIA JAPONICA—Graceful, slender, drooping branches, covered with a wealth of rich, double, yellow flowers in June. Effective for massing, branches remain green all winter. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

KERRIA WHITE (*Rhodotypos Kerrioides*)—A fine shrub for the shady spots around the house. Its foliage is unusually attractive, sharp notches and deep veins giving it a plaited effect. Showy white flowers in May and June, followed by jet black berries. 2 to 3 feet 40c each, \$3.00 per 10; 3 to 4 feet 50c each, \$4.00 per 10.

KOLKWITZIA AMABILIS (Beauty Bush)—Beautiful in foliage and flower, its peculiar charm merits the name "Beauty Bush." A gorgeous dome-shaped mass, with dainty tubular-shaped flowers of deep pink. 12 to 18 inch 35c each, \$3.00 per 10; 18 to 24 inch 45c each, \$4.00 per 10.

LINDERA (*Benzoin Aestivalis*)—Spice Bush—Excellent for planting along the edge of water. Bright yellow flowers in early spring before the leaves appear. In the fall the plant is covered with scarlet berries, when the leaves turn to bright yellow. 12 to 18 inch 20c each, \$1.50 per 10; 18 to 24 inch 30c each, \$2.50 per 10.

French Lilacs

Hydrangea, P. G.

LILACS—Best loved of all the old-time garden shrubs, whose flowers never fail to charm with their delicate beauty nor refresh with their tender fragrance.

Purple—The well-known old garden favorite.

White—The same with pure white blooms.

Rothomagensis—Strong, vigorous growth; deep reddish-lilac flowers borne in long, loose panicles. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

NOTICE SPECIAL PRICES

Hand this special price list to your friends, but do not do so until you have sent in your own order. Your friends will thank you for it, and we will THANK YOU, TOO.

LONICERAS (Bush Honeysuckle)—The fragrant flowers, showy fruits and beautiful green foliage of this group have made them one of the most popular of the ornamental shrubs. They are hardy and easy to transplant.

Bella Albida—White flowers, followed by scarlet berries.

Bella Candida—Light pink flowers.

Fragrantissima—Earliest to bloom; flowers pale pink, very fragrant.

Morrowi—Creamy-white flowers, followed by bright red berries.

Tatarica Pink—Early blooming. Bears a profusion of pink flowers.

Tatarica Alba—White flowering, very showy.

Tatarica Rubra—Deep shade of pink.

18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

BETCHEL'S FLOWERING CRAB (*Malus Ioensis Bechtel*)—A small tree. The beautiful, double pink blossoms, that are borne in great quantities, resemble small roses, and are very fragrant. 2 to 3 feet 40c each, \$3.50 per 10; 3 to 4 feet 50c each, \$4.50 per 10.

PHILADELPHUS (Mock Orange)—The popularity of this old-fashioned shrub has been largely on account of the creamy-white, fragrant flowers. Tall growing, makes a splendid screen.

Coronarius—Small, single flowers of delicious fragrance.

Gordonianus—Large, white flowers, that appear later than others.

Grandiflorus—Flowers large and white. Foliage very showy.

Mont Blanc—Dwarf in habit. Large, fragrant blooms make it very popular.

Nivalis—Very strong grower. Large, single white flowers. 12 to 18 inch 15c each, \$1.00 per 10; 18 to 24 inch 25c each, \$2.00 per 10.

PHILADELPHUS VIRGINAL—A magnificent new variety. Vigorous and tall in growth, it is absolutely hardy and dependable to produce an amazing profusion of flowers year after year. A cluster of these beautiful, fragrant flowers resembles a bride's bouquet of orange blossoms. 18 to 24 inch 35c each, \$3.00 per 10; 2 to 3 feet 40c each, \$3.50 per 10.

PRIVET - HEDGE PLANTS

With the hedge comes the delicate touch of privacy that stamps a home as really your very own; it borders the picture and frames it artistically, without shutting off the lovely views.

Plant a hedge fence. It will cost you less than the cheapest fence you can build; it will outwear the best fence you can build; it will look better than any fence you can build.

We are large growers of hedge plants, and are thereby enabled to make the following very low prices:

AMUR RIVER NORTH—This variety is very hardy and is widely used in the North. It makes fine, dense hedges.

AMUR RIVER SOUTH—Southern evergreen privet. Most popular evergreen plant in the South. Rich green foliage, compact growth. Makes a good hedge in one year.

CALIFORNIA—Thick glossy green foliage, nearly evergreen. It makes a good hedge, or is good planted as single specimens.

Prices on above varieties: 12 to 18 inch branched 40c per 10, \$2.00 per 100, \$18.00 per 1000; 18 to 24 inch, branched 60c per 10, \$3.00 per 100, \$22.50 per 1000.

IBOTA—A Japanese variety of the most beautiful character. Valuable for specimen plants or hedges. Numerous nodding clusters of white flowers, followed by black berries.

IBOLIUM—A cross between California and Ibota Privet, having the attractiveness of the California and at the same time is much hardier.

Prices Ibota and Ibolium: 12 to 18 inch, branched, 50c per 10, \$2.50 per 100, \$20.00 per 1000; 18 to 24 inch branched 65c per 10, \$4.00 per 100, \$30.00 per 1000.

Note Great Reduction Sale Price in Quantity Lots

PRUNUS PISSARDI (Purple Leaf Plum) — In spring this little tree has masses of rose-pink flowers with pink-purple leaves; later it is hung with wine-red fruits. 2 to 3 feet 35c each, \$3.00 per 10; 3 to 4 feet 45c each, \$4.00 per 10.

PRUNUS PERSICA (Double Flowering Peach)—Grows to a small tree, and during March is covered with a mass of beautifully formed flowers

Spirea Anthony Waterer

California Privet

We can supply red, white and pink. 2 to 3 feet 65c each, \$5.00 per 10; 3 to 4 feet 85c each, \$7.50 per 10.

PRUNUS TRILOBA (Double Flowering Plum)—Early flowering ornamental shrub, bearing double flowers of a delicate pink shade, which are produced in enormous quantities along the slender branches. 2 to 3 feet 75c each, \$7.00 per 10; 3 to 4 feet \$1.00 each, \$8.00 per 10.

RHUS (Sumac)—Picturesque, gnarly, wind-bent rows of Sumac blazing in autumn with red leaves and gorgeous fruits, are familiar. Use of Sumac in modern landscaping gives the same effects in home grounds.

Aromatica (Fragrant Sumac)—A short-branched shrub, with striking leaves and yellow flowers in clusters along the stems. Bright red berries in fall. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

Copallina (Shining Sumac)—Very ornamental and useful for mass planting, because of the lustrous green foliage, which turns to rich crimson in the fall. The birds feed on the clusters of berries until late in the winter. 2 to 3 feet 20c each, \$1.50 per 10; 3 to 4 feet 25c each, \$2.00 per 10.

Cotinus (Purple Fringe)—Often called the Smoke Tree on account of the mass of misty, purplish flowers that cover the entire bush and make it look like a great mass of smoke. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

Glabra (Smooth Sumac)—Striking foliage, topped in the fall by great spikes of crimson seeds, very ornamental in effect. Fine autumn coloring; good on rocky or poor soil; grows to a small tree. 2 to 3 feet 15c each, \$1.00 per 10; 3 to 4 feet 20c each, \$1.50 per 10.

Typhina (Staghorn Sumac)—Grows in irregular bush form up to 10 feet and is very good for grouping. The leaves are large and bright green, but become brilliantly colored in the fall. 2 to 3 feet 15c each, \$1.00 per 10; 3 to 4 feet 20c each, \$1.50 per 10.

ROBINIA HISPIDA (Moss Locust)—Foliage resembles the Black Locust, but the mass of long, graceful, deep rose-pink flowers make it most attractive. A dwarf bush that sprawls upon the ground, rarely growing taller than 2 to 3 feet. 12 to 18 inch 20c each, \$1.50 per 10; 18 to 24 inch 25c each, \$2.00 per 10.

SPIREA—All the Spireas bloom with a riotous extravagance; style, color and habits of growth differing markedly. There is truly a Spirea for every place. We list below the different varieties, which we guarantee will keep flowers in your garden from early spring until late fall.

Anthony Waterer—Low-growing, very bushy plant that bears small heads of bright crimson flowers. Valuable for planting with taller shrubs. 12 to 18 inch 20c each, \$1.50 per 10; 18 to 24 inch 25c each, \$2.00 per 10.

Spirea Van Houttei

Billardi—A strong grower, with dull green foliage, and long cone-shaped flowers of pink and white, that are very attractive for cut flowers. State color of flower wanted. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

Bumalda—Beautiful flowers in pink clusters appear in mid-summer. A very handsome shrub having shapely cut leaves. 15 to 18 inch 35c each, \$3.00 per 10; 18 to 24 inch 50c each, \$4.00 per 10.

Callosa Rosea—Lacy clusters of pink flowers appear in June and July. A dense, low-growing shrub. 18 to 24 inch 15c each, \$1.00 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

Douglasi—Flowers deep rose color. One of the best Spireas. The blossoms are large spikes and very attractive, appearing in late summer. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

Opulifolia—A good, vigorous shrub, easily grown. Creamy-white flowers in June, turning to dark red. A striking variety of colors. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

Reevesiana—Throwing out long branches that curve gracefully and are covered with clusters of double white flowers. 2 to 3 feet, heavy 30c each, \$2.50 per 10; 3 to 4 feet heavy 35c each, \$3.00 per 10.

Thunbergi—Forms a dense fluffy bush with feathery foliage, and small star-like flowers in such profusion that in early spring the plant looks like a mass of snow. In the fall, foliage changes to bright red and orange. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 25c each, \$2.00 per 10.

Prunifolia (True Bridal Wreath)—Of strong irregular growth, with small round shining leaves coloring in autumn, and diminutive, very double, rose-like flowers in great abundance in May. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

Van Houttei—Probably the most beautiful of the Spireas, and one of the most popular of all shrubs. Blooms early in the spring. Plant throws out long branches that curve and droop to the ground weighted with a mass of pure white flowers. May be planted as specimens or in masses; makes a beautiful hedge. It is very hardy and thrives in all climates and all kinds of soil.

Special Prices on Van Houttei—12 to 18 inch branched 10c each, 75c per 10, \$4.00 per 100; 18 to 24 inch branched 15c each, \$1.00 per 10, \$6.00 per 100; 2 to 3 feet branched 20c each, \$1.50 per 10, \$8.00 per 100; 3 to 4 feet branched 25c each, \$2.00 per 10, \$15.00 per 100; 4 to 5 feet, heavy 35c each, \$3.00 per 10, \$20.00 per 100.

WHITE SNOWBERRY (Symphoricarpus Racemosus)—Inconspicuous, rose-colored flowers in June and July, followed by large, round, clustered, milk-white fruits. The combination of pink flowers and white berries on the same twig is charming. Foliage fresh, glaucous green. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

STUARTIA PENTAGYNA—A shrub with spreading branches, usually growing 5 to 10 feet tall. Leaves are bright green in spring and summer, fading with glowing colors. Flowers white, with wavy rose-bordered petals and golden anthers, opening in summer. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

TAMARIX—An irregular spreading tree-like shrub, growing 6 to 10 feet tall, with fine feathery foliage. In early summer it is covered with clouds of small, pink flowers, presenting a very beautiful appearance. Thrives in dry sandy soils and makes a good shrub for seaside planting. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

HIGH BUSH CRANBERRY (Viburnum Opulus)—Very ornamental. Berries resembling small cranberries, hang until destroyed by frost late in fall. 18 to 24 inch 35c each, \$3.00 per 10; 2 to 3 feet 45c each, \$4.00 per 10.

COMMON SNOWBALL (Viburnum Opulus Sterile)—A fine, old-time favorite. Free growing, easy culture. Covered with balls of snow white flowers in early spring. 18 to 24 inch 30c each, \$2.50 per 10; 2 to 3 feet 40c each, \$3.00 per 10.

JAPANESE SNOWBALL (Viburnum Plicatum)—Foliage a handsome olive-green; flowers are larger than the Common Snowball; borne in dense heads; very ornamental. 18 to 24 inch 40c each, \$3.50 per 10; 2 to 3 feet 50c each, \$4.00 per 10.

VIBURNUM TOMENTOSUM—A single flowered type of Japanese Snowball. Bush broad, with bronze-green foliage, purple beneath. Fruits red, changing to blue-black. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

VITEX (Chaste or Lavender Tree)—Flowers and foliage noted for the distinctive lavender fragrance. Stands much abuse. Flowers from May until July, with some flowers appearing even up to frost. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

WEIGELA (Diervilla)—Thrifty shrubs, very desirable for the border or for grouping, and also as specimen plants for the lawn. The showy flowers are stemless bells strung along the arching canes in clustered confusion.

Amabilis—Grows to about 6 feet, with rich, dark green leaves and very attractive, rose-colored flowers.

Desboisi—The flowers are deep rose-colored. One of the best.

Hendersoni—One of the strongest growing Weigelas, with large flowers of deep rose color.

Madame Lemoine—One of the very prettiest. Flowers blush changing to deep pink.

Rosea—Best known and most popular variety. Deep pink blossoms, which are borne in wonderful profusion and make a great show in June. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

EVA RATHKE WEIGELA—Flowers deep carmine red. Very distinct and attractive variety.

VARIEGATED LEAF WEIGELA—Leaves bordered with yellowish-white, making the bush very conspicuous.

FLORIBUNDA (Crimson Weigela)—Very free flowering, vigorous growing. Flowers brownish-crimson in bud, opening to bright crimson.

Prices all red varieties: 18 to 24 inch 35c each, \$3.00 per 10; 2 to 3 feet 45c each, \$4.00 per 10.

Japanese Snowball

Plant More Trees for Shade and Beauty

Nowhere are more beautiful or desirable trees to be found than the grand old specimens of our American forests. If you want to add greatly to the permanent value of your place, plant shade trees. Like every other good thing, they take time to grow, but they will repay you a thousand times for the time you wait, in grateful shade in summer and glorious autumn colors. We list all the old favorites that you know so well and also many other trees that you may not be so familiar with.

In our nurseries we grow specimen trees for immediate effect. Their roots have been pruned as they grow to develop a compact root system. This enables the trees to keep right on growing when they are moved. A good planting of trees will fairly "make a place."

SILVER MAPLE (*Acer Dasycarpum*)—A very quick-growing shade tree. Foliage light green above and silvery beneath. Will grow under most all conditions. 4 to 6 feet 40c each, \$3.50 per 10; 6 to 8 feet 60c each, \$5.00 per 10.

NORWAY MAPLE (*Platanoides*)—Very popular variety for either lawn or street planting. Forms a perfect rounded head, with large, deep green foliage. Easily transplanted. 4 to 6 feet \$1.00 each, \$8.00 per 10; 6 to 8 feet \$1.25 each, \$10.00 per 10.

SCARLET, OR RED MAPLE (*Acer Rubrum*)—Also called Swamp Maple. A long-lived, hardy tree of upright growth. Scarlet flowers in early spring; dense foliage turning to gorgeous colors in autumn. 3 to 4 feet 30c each, \$2.50 per 10; 4 to 6 feet 40c each, \$3.50 per 10.

SUGAR MAPLE (*Acer Saccharum*)—Known also as Hard Maple. It is adapted to rocky, gravelly soil. Leaves come out early, and in late summer turn to brilliant colors. The delicious Maple Sugar is made from the sap of these trees. 4 to 6 feet 40c each, \$3.50 per 10; 6 to 8 feet 60c each, \$5.00 per 10.

SCHWEDLER MAPLE (*Platanoides Schwedleri*)—A handsome lawn tree, developing the rounded, dense head of the Norway Maple. Brilliant, purplish red leaves in the spring make a rich contrast with the vivid greens of surrounding nature; gradually the highly colored leaves soften to bronze, then to waxy green, and late in the fall are deep yellow. 6 to 8 feet \$1.75 each, \$15.00 per 10; 8 to 10 feet \$2.50 each, \$20.00 per 10.

BOX ELDER (*Acer Negundo*)—A valuable tree where quick growth is wanted. Popular for city plantings, due to its drought resistance. Hand-some light green foliage and spreading head. 6 to 8 feet 75c each, \$6.50 per 10; 8 to 10 feet \$1.00 each, \$8.00 per 10.

AESCULUS OCTANDRA (Horse-Chestnut) — Often called the Yellow Buckeye. A large tree of slow growth and very attractive in its roundish form. Flowers in May. 18 to 24 inch 20c each, \$1.50 per 10; 2 to 3 feet 30c each, \$2.50 per 10.

AESCULUS NEGLECTA—Dwarf Buckeye, rarely over 20 feet in height. Dark leaves and splendid showy red flower-spikes opening later. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

AILANTHUS (Tree of Heaven)—A native of Japan. A rapid growing tree with feathery tropical foliage. Will thrive in poor soil. Excellent for city planting, as it stands smoke and dust well. 3 to 4 feet 35c each, \$3.00 per 10; 4 to 6 feet 50c each, \$4.50 per 10.

Norway Maple

AMELANCHIER (Serviceberry) — A great profusion of white flowers early in spring, followed by small purple fruit ripe in July. One of the best flowering trees. 3 to 4 feet 65c each, \$6.00 per 10; 4 to 6 feet 90c each, \$8.00 per 10.

ANDROMEDA ARBOREUM (Sour Wood)—A bushy tree that bears quantities of small white flowers, but its best feature is the foliage that turns to scarlet in the fall. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

AMERICAN ASH (*Fraxinus Americana*)—Very graceful tall-growing tree. Bark is light gray; foliage turning to gold and purple in autumn. A long lived tree that does not require pruning. 4 to 6 feet 40c each, \$3.50 per 10; 6 to 8 feet 60c each, \$5.00 per 10.

AMERICAN BEECH (*Fagus Americana*)—This tree makes a fine winter display on account of its smooth, light gray bark, but is much better in spring, when veiled by the tender green leaves. The nuts have a fine flavor, and are borne in abundance. 4 to 6 feet 50c each, \$4.00 per 10; 6 to 8 feet 75c each, \$6.50 per 10.

CUT LEAF WEEPING BIRCH (*Alba Pendula*)—Most remarkable and beautiful tree for the lawn. Foliage deep cut; silvery white bark at maturity. 6 to 8 feet \$2.00 each, \$15.00 per 10; 8 to 10 feet \$3.00 each, \$25.00 per 10.

RIVER BIRCH (*Nigra*)—This variety, with the ragged or torn bark, is found along the banks of streams. A graceful, moisture-loving tree. Leaves are dark green, turning to dull yellow in fall. 4 to 6 feet 50c each, 4.00 per 10; 6 to 8 feet 75c each, \$6.00 per 10.

WHITE BIRCH (*Alba*)—A medium-sized tree, with grayish green foliage and slender branches. As the tree grows older the bark becomes whiter. 4 to 6 feet 85c each, \$7.50 per 10; 6 to 8 feet \$1.25 each, \$10.00 per 10.

CARPINUS CAROLINIANA (American Hornbeam)—Slow-growing, hardy tree, resembling the Beech. Useful for screens and hedges. Scarlet foliage in winter. 4 to 6 feet 75c each, \$6.00 per 10; 6 to 8 feet \$1.00 each, \$8.00 per 10.

Catalpa Bungei

CATALPA BUNGEI (Umbrella Catalpa)—A dwarf, round-headed tree, used for producing formal effects. The head can be kept compact by trimming. 4 to 6 feet, one year head \$1.00 each, \$8.00 per 10; 6 to 8 feet, two year head \$1.50 each, \$12.50 per 10.

CATALPA SPECIOSA (Western Catalpa)—Used either for lawn or forest planting. Immense, tropical looking leaves with big clusters of white flowers. 4 to 6 feet 50c each, \$3.50 per 10; 6 to 8 feet 75c each, \$6.00 per 10.

We can furnish seedlings of Speciosa Catalpa for reforestation purposes. Write for special prices.

CERCIS CANADENSIS (Red Bud)—One of the finest ornamental trees we offer. Medium size, with heart-shaped, leathery dark green foliage. A profusion of rose-pink flowers cover the branches early in spring, before the foliage appears. 4 to 6 feet 50c each, \$4.00 per 10; 6 to 8 feet 85c each, \$7.00 per 10.

WHITE FRINGE TREE (*Chionathus Virginica*)—Very attractive as a specimen or in groups with other tall shrubs. Pure white flowers in long, fringe-like effect in early April. 18 to 24 inch 35c each, \$3.00 per 10; 2 to 3 feet 45c each, \$4.00 per 10.

CLADRASTIS LUTEA (Yellow Wood)—A pretty low tree with small egg-shaped leaflets and white flowers in graceful, drooping branches. Very slow growth. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 35c each, \$3.00 per 10.

CORNUS FLORIDA (White Flowering Dogwood)—A tree that is a source of beauty and pleasure the entire year round. In spring the snowy white flowers appear before the foliage; the foliage is handsome during the summer, and the red berries are one of autumn's chiefest charm. 3 to 4 feet 35c each, \$3.00 per 10; 4 to 6 feet 50c each, \$4.00 per 10.

CORNUS FLORIDA RUBRA (Pink Flowering Dogwood)—A rare and beautiful variety. Blossoms are rose-pink, suffused with bright red, appearing before the leaves. 2 to 3 feet, B&B \$1.00 each, \$8.00 per 10; 3 to 4 feet, B&B \$1.75 each, \$15.00 per 10; 4 to 5 feet \$2.25 each.

HAZELNUT (*Corylus Americana*)—Very hardy tree. Grown for its handsome large foliage and edible nuts. 2 to 3 feet 20c each, \$1.50 per 10; 3 to 4 feet 30c each, \$2.50 per 10.

AMERICAN ELM (*Ulmus Americana*)—The most beautiful of the Elms. It is lofty and spreading and very hardy. 4 to 6 feet 50c each, \$4.00 per 10; 6 to 8 feet 75c each, \$6.00 per 10.

CHINESE ELM—The new sensational tree; sturdy, quick growing and beautiful. Resists drought, heat and alkali, and will grow from 4 to 8 feet per season. Thrives in poor soil where other trees die out; in zero weather as well as in hot countries. Endorsed by Experiment Stations. 4 to 6 feet 50c each, \$4.50 per 10; 6 to 8 feet \$1.00 each, \$8.00 per 10. (We have these up to 15 feet).

Chinese Elm

Lombardy Poplar

CORK BARK ELM (*Ulmus Alata*)—A medium size tree with corky branches. Leaves dark green, fading to yellow in autumn. An extra fine shade tree. 3 to 4 feet 30c each, \$2.50 per 10; 4 to 6 feet 40c each, \$3.50 per 10.

MOLINE ELM—A very popular variety on account of its upright, narrow growth. Leaves dark green and nearly twice the size of the ordinary Elm leaf 6 to 8 feet 75c each, \$6.50 per 10; 8 to 10 feet \$1.00 each, \$8.50 per 10.

HALESIA (Silver Bell)—Grows well in sheltered position. Pure white flowers are produced in abundance along the entire length of the branch; foliage attractive. 4 to 6 feet 65c each, \$5.00 per 10; 6 to 8 feet 75c each, \$6.00 per 10.

HAMAMELIS VIRGINIANA (Witch Hazel) — Good for natural plantings and shady places. Very unusual because of the season of bloom of its yellow flowers in November, when other shrubs are dormant. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

HAWTHORN (*Crus-Galli*)—Small tree, valuable for specimen planting. Leaves dark green, fading with tones of orange and scarlet. White flowers. 2 to 3 feet 50c each, \$4.50 per 10; 3 to 4 feet 75c each, \$6.50 per 10.

PAUL'S SCARLET THORN—A well-known shrub or small tree, much prized for its double scarlet flowers in spring and red berries in late fall. 2 to 3 feet 75c each, \$6.00 per 10; 3 to 4 feet \$1.00 each, \$8.00 per 10.

VARNISH TREE (*Koelreuteria Paniculata*)—Decorative, round-headed tree, with handsome, light green foliage and clusters of small yellow flowers. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

AMERICAN LINDEN (*Tilia Americana*)—Suitable for parks or lawns. Intensely fragrant yellow flowers, and broad top which gives plenty of shade. 4 to 6 feet 40c each, \$3.50 per 10; 6 to 8 feet 75c each, \$5.00 per 10.

SWEET GUM (*Liquidambar Styraciflua*)—A beautiful pyramidal tree, with maple-like leaves, assuming a gorgeous crimson color in winter. 2 to 3 feet 35c each, \$3.00 per 10; 3 to 4 feet 50c each, \$4.00 per 10.

LOCUST (*Triacanthos*—Honey Locust)—Of quick growth, very hardy and as it can be clipped into shape and bears numerous thorns, it makes an impenetrable farm hedge when planted closely. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 35c each, \$3.00 per 10.

TULIP TREE (*Liriodendron Tulipifera*)—Often referred to as the Yellow Poplar. Large and stately tree with smooth bark, glossy light green leaves and spreading branches. The flowers are tulip shape, greenish yellow. 2 to 3 feet 20c each, \$1.50 per 10; 3 to 4 feet 35c each, \$3.00 per 10.

RUSSIAN MULBERRY (*Alba Tartarica*)—Hardy, low-growing tree, with shapely head; small, sweet berries in abundance. 2 to 3 feet 15c each, \$1.00 per 10; 3 to 4 feet 25c each, \$2.00 per 10.

TEAS' WEEPING MULBERRY (*Alba Pendula*)—A rather odd tree, with its long, sweeping branches, producing a fountain-like effect of large, glossy green leaves. One year heads \$1.00 each, \$9.00 per 10; Two year heads \$1.50 each, \$12.50 per 10.

OSAGE ORANGE (*Maclura Pomifera*)—An extremely hardy tree, whose wood is valuable for fence posts. For farm hedging it is good, can be clipped to any desired height, and forms an impassable barrier. Write for prices on quantity lots. 18 to 24 inch 10c each, 80c per 10; 2 to 3 feet 20c each, 1.50 per 10.

MAGNOLIA ACUMINATA (Cucumber Tree) — Tall-growing pyramidal tree. Large creamy white blossoms appear in mid-summer, followed by cucumber-shaped fruits that turn bright crimson.

MAGNOLIA MACROPHYLLA (Great Leaved Magnolia)—A symmetrical tree with wide spreading branches. Leaves very large, bright green above, silvery gray beneath. Flowers creamy white, fragrant.

MAGNOLIA TRIPETALA—Low-growing. Immense leaves in clusters around the large white flowers; rose-colored fruit cones.

Any of the above Magnolias at the following prices. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 35c each, \$3.00 per 10.

MAGNOLIA SOULANGEANA—Cup-shaped rosy-violet blossoms open before leaves appear. Will grow 30 feet or more or can be trimmed to desired height. Rare and beautiful. 2 to 3 feet B&B \$2.25 each, \$20.00 per 10; 3 to 4 feet B&B \$4.00 each, \$30.00 per 10.

AMERICAN PERSIMMON (*Diospyros*)—An ornamental tree, native of Southern states, but fruit will ripen in the North. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 35c each, \$3.00 per 10.

JAPANESE PERSIMMON (*Kaki*)—A vigorous grower and an early and most prolific bearer; fruit larger than the American Persimmon. 2 to 3 feet 40c each, \$3.00 per 10; 3 to 4 feet 60c each, \$5.00 per 10.

BALM OF GILEAD (*Populus Candicans*)—A big spreading, fast growing tree. The buds have a pleasant fragrance in early spring. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 35c each, \$3.00 per 10.

CAROLINA POPLAR (*Monilifera*)—Very beautiful tree. Foliage is glossy and showy, borne on thin stems, causing the leaves to flutter and turn with the wind. Erect in form. 3 to 4 feet 25c each, \$2.00 per 10; 4 to 6 feet 40c each, \$3.50 per 10.

BOLLEANA POPLAR (Silver Leaf)—Will grow quickly to a tall spire. Its leaves are glossy green, silvery beneath, creating an attractive flashing effect when stirred by the winds. We have some extra fine trees we offer at the following prices: 8 to 10 feet \$1.50 each, \$12.50 per 10; 10 to 12 feet \$2.00 each, \$15.00 per 10.

GOLDEN LEAF POPLAR—One of the best of the yellow-leaved trees. Generally holds its color throughout the growing season. Resembles the Carolina Poplar, except in color of foliage. 4 to 6 feet 50c each, 4.00 per 10; 6 to 8 feet 75c each, \$6.50 per 10.

LOMBARDY POPLAR (*Nigra*)—Grows tall and symmetrical. Branches close to the ground and is fine for screen purposes or landscape work. A picturesque tree. 3 to 4 feet 20c each, \$1.50 per 10; 4 to 6 feet 40c each, \$3.50 per 10.

NEW CHINESE LOMBARDY POPLAR (*Simoni*)—This tree has recently become very popular. Large dark green foliage and pyramidal shape. Fast growing. 3 to 4 feet 25c each, \$2.00 per 10; 4 to 6 feet 50c each, \$4.00 per 10.

Pecan Trees

SILVER POPLAR (*Alba*)—This tree will thrive where most others fail. Quick growing with silvery leaves. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 40c each, \$3.50 per 10.

CAROLINA BUCKTHORN (*Rhamnus Caroliniana*)—Hardy, small tree. Black berries in profusion and dark green, lustrous leaves. Used largely for hedge plants. 3 to 4 feet 25c each, \$2.00 per 10; 4 to 6 feet 50c each, \$4.00 per 10.

BLACK LOCUST (*Robinia Pseudacacia*) — The Black Locust is very valuable for timber. A quick growing tree and will attain great height. Flowers in long, white racemes, very fragrant. 2 to 3 feet 10c each, 80c per 10; 3 to 4 feet 20c each, \$1.50 per 10.

We are offering these at very attractive prices in quantity lots for reforestation. If interested, write us.

AMERICAN SYCAMORE (*Platanus Occidentalis*) —For quick shade the Sycamore is highly recommended. The bark peels annually and the new bark is silvery white. A very hardy, dependable tree. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 35c each, \$3.00 per 10.

BALD CYPRESS (*Taxodium Distichum*)—A remarkably tall tree of conical shape. Foliage fine and feathery. Grows well in any soil. 2 to 3 feet 40c each, \$3.50 per 10; 3 to 4 feet 75c each, \$6.00 per 10.

BLACK HAW (*Viburnum Prunifolium*)—Small tree, growing to about 15 feet, with spreading stout branches. Flowers snowy-white, followed by bluish black fruit. 2 to 3 feet 25c each, \$2.00 per 10; 3 to 4 feet 40c each, \$3.00 per 10.

BASKET WILLOW (*Salix Viminalis*)—A very ornamental type of the Willow. The name is very suggestive, as the tree really grows in the shape of a basket. We have some nice specimen trees to offer. 2 to 3 feet 20c each, \$1.50 per 10; 3 to 4 feet 35c each, \$2.50 per 10.

PUSSY WILLOW (*Salix Caprea*)—Upright growing Willow. The fur-like catkins along the branches in early spring make it very attractive and are fine for making delightful "springy" bouquets. 2 to 3 feet 15c each, \$1.00 per 10; 3 to 4 feet 25c each, \$2.00 per 10.

WEeping WILLOW (*Salix Babylonica*)—Best known of all Willows. Will grow in any good soil. The long, drooping, slender branches of olive-green make it splendid for formal effects. 3 to 4 feet 25c each, \$2.00 per 10; 4 to 6 feet 50c each, \$4.00 per 10.

FOREST TREE SEEDLINGS FOR REFORESTATION

We are growing large quantities of forest tree seedlings for reforestation purposes and are making attractive prices on one and two-year seedlings, where they are used for above mentioned purposes. Write for special quotations, giving quantities wanted.

NUT TREES

For Ornament, for Shade, and Profitable Crops

Almost every farm contains land that should be planted to nut trees. Nuts in many cases pay better than farm crops or fruits, while most kinds are making a growth of valuable timber that will of itself pay a large per cent on the investment. The highly ornamental feature of nut trees should not be overlooked.

PECANS (*Carya Pecan*)—Pecan growing is becoming a favorite industry in the Southern and Western states and is quite profitable. The trees are long lived, quite hardy and productive.

Frotscher—Very thin shell. Medium size nut, long and tapering.

Moneymaker—Extra good; heavy producer.

Schley—Nuts of highest quality and very thin shell.

Stuart—Extremely hardy. Nuts good size, plump and well filled.

Success—Resembles the Stuart, only larger. Nuts excellent flavor.

2 to 3 feet 45c each, \$4.00 per 10; 3 to 4 feet 65c each, \$5.00 per 10.

HAZELNUTS (*Corylus Americana*)—Nuts borne in large fringed fruit husks. Kernels sweet and edible. A very hardy tree with handsome foliage. 2 to 3 feet 20c each, \$1.50 per 10; 3 to 4 feet 30c each, \$2.50 per 10.

AMERICAN SWEET CHESTNUT (*Castanea Dentata*)—A large, ornamental tree, planted largely for shade; also valuable commercially. The nuts are the sweetest of any variety. 2 to 3 feet 40c each, \$3.50 per 10; 3 to 4 feet 65c each, \$5.00 per 10.

BLACK WALNUT (*Juglans Nigra*)—Native tree of large size, produces large crops of delicious meaty nuts. The wood of the Black Walnut tree commands the highest price on the market because of its beauty and value in furniture making. 18 to 24 inch 10c each, 75c per 10, \$3.75 per 100; 2 to 3 feet 15c each, \$1.00 per 10, \$5.00 per 100.

WHITE WALNUTS (*Juglans Cinera*)—Also called Butternuts. Valuable for shade. Highly prized producing a sweet, nutritious kernel. 18 to 24 inch 10c each, 75c per 10, \$3.75 per 100; 2 to 3 feet 15c each, \$1.00 per 10, \$5.00 per 100.

JAPAN WALNUT (*Juglans Sieboldiana*)—Not so tall as our native Walnut trees, but is a rapid grower. The nuts are heart-shaped, borne in clusters like the Butternuts. Tree begins to bear when 2 to 3 years old. 18 to 24 inch 25c each, \$2.00 per 10; 2 to 3 feet 35c each, \$3.00 per 10.

HICKORY NUTS (*Shellbark*—*Carya Laciniosa*)—Vigorous growing tree, with dense green leaves. Bears small nuts with edible sweet kernels. 12 to 18 inch 20c each, \$1.50 per 10; 18 to 24 inch 30c each, \$2.50 per 10.

Coniferous Evergreens

Evergreens are always in favor for landscape work, their deep green foliage making a strong background for the brilliant colors of summer; but it is in winter that they are most appreciated, the absence of other colors tending to bring out their beauty of form in a most striking manner. They can be used in foundation or corner plantings, as single specimens on the lawn or along the driveway, as hedges, windbreaks, and in many delightful ways.

BALSAM FIR (*Abies Balsamea*)—A widely known tree of great hardiness, much the same shape as the Norway Spruce. Compact, intense dark green foliage, with purplish-violet cones.

DOUGLAS FIR (*Pseudotsuga Douglasi*)—A strong growing tree, with beautiful, soft, dark green foliage. Thrives well in almost any situation.

Prices above varieties: 12 to 18 inch \$1.00 each. \$9.00 per 10; 18 to 24 inch \$1.50 each, \$12.50 per 10.

CEDRUS DEODARA (Indian Cedar)—Of pyramidal form, reaching large size. Branches feathery and spreading. Foliage a beautiful shade of bluish green, similar to Colorado Blue Spruce. Should be planted on well drained soil. 18 to 24 inch 1.00 each, \$9.00 per 10; 2 to 3 feet \$1.50 each, \$12.50 per 10.

LAWSON CYPRESS (*Cupressus Lawsoniana*)—Grows pyramidal shape, and very compact. Foliage bright, grayish green, disposed in fern-like expansions. 18 to 24 inch \$1.25 each, \$10.00 per 10; 24 to 30 inch \$2.00 each, \$15.00 per 10.

JUNIPER (*Juniperus*)

A group of evergreen trees and shrubs of great beauty and adaptability. The upgrowing forms make beautiful specimens, while the prostrate varieties are widely used as a ground cover.

CANADENSIS (Spreading Juniper)—A fine creeping Juniper, seldom more than one foot high, and attaining a spread of 8 to 10 feet. A dense compact mat of beautiful green foliage. 15 to 18 inch 75c each, \$5.00 per 10; 18 to 24 inch \$1.00 each, \$8.00 per 10.

HORIZONTALIS JUNIPER—Another handsome, serviceable, creeping Juniper. The foliage is thread-like, yet dense and prostrate. Color light green. 15 to 18 inch \$1.25 each, \$10.00 per 10; 18 to 24 inch \$1.75 each, \$15.00 per 10.

PROSTRATE JUNIPER (*Communis Depressa*)—Can be kept to any size desired, stands trimming well. Leaves sharp pointed, gray green and light silvery beneath. Excellent for ground cover. 12 to 18 inch 1.25 each, \$10.00 per 10; 18 to 24 inch \$2.00 each, \$17.50 per 10.

PFITZER'S JUNIPER (*Pfitzeriana*)—One of the most popular Junipers, used in foundation plantings. Branches grow at angle of about forty-five degrees from the stem. It is a grayish green, summer and winter. 12 to 18 inch spread \$1.25 each, \$10.00 per 10; 18 to 24 inch spread \$2.00 each, \$17.50 per 10.

SAVIN JUNIPER (*Sabina*)—A low growing Juniper, foliage needle-shaped, dark green; gives a general effect of very graceful plumes. Good for rock work. 15 to 18 inch \$1.00 each, \$8.00 per 10; 18 to 24 inch \$1.50 each, \$12.50 per 10.

SABINA TAMARISCIFOLIA—A trailing form of the Savin. Bluish-green foliage, dense and very fine. 12 to 15 inch \$1.00 each, \$8.00 per 10; 15 to 18 inch \$1.25 each, \$10.00 per 10.

STRICTA JUNIPER (*Excelsa Stricta*)—An upright growing variety, very desirable for foundation plantings or as a specimen where a low-growing tree is desired. Grayish green foliage. 12 to 18 inch 75c each, \$6.00 per 10; 18 to 24 inch \$1.25 each, \$10.00 per 10.

IRISH JUNIPER (*Communis Hibernica*)—Grows columnar, very erect. Foliage sage green and very compact. Much used in cemeteries. 24 to 30 inch \$1.00 each, \$8.00 per 10; 30 to 36 inch, \$1.75 each, \$15.00 per 10.

RED CEDAR (*Juniper Virginiana*)—Our native evergreen tree, a strong and sturdy grower. Useful for shade or ornamental purposes, can be trimmed to any desired shape. Light green foliage. 18 to 24 inch 40c each, \$3.50 per 10; 24 to 30 inch 60c each, \$5.50 per 10.

If larger sizes are wanted, write for special prices

BLUE CEDAR (*Virginiana Glauca*)—Foliage silvery blue, very compact. One of the best types of blue evergreens. Very desirable for specimen planting. 18 to 24 inch \$1.75 each, \$15.00 per 10; 2 to 3 feet \$2.50 each, \$22.50 per 10.

NORWAY SPRUCE (*Excelsa*)—The most popular Spruce, due to its hardiness. Makes rapid growth and is easily transplanted. Dark green foliage. Used extensively for Christmas trees. 12 to 18 inch 75c each, \$6.00 per 10; 18 to 24 inch \$1.25 each, \$10.00 per 10.

COLORADO BLUE SPRUCE (*Pungens Glauca*)—A symmetrical tree of broad based pyramidal form. Foliage intense steel-blue needles. One of the showiest and most impressive evergreens. 18 to 24 inch \$6.50 each; 2 to 3 feet \$8.00 each.

RED SPRUCE (*Rubra*)—This variety is similar to the Norway Spruce, but hardly so large. Light green foliage. 12 to 18 inch 75c each, \$6.00 per 10; 18 to 24 inch \$1.25 each, \$10.00 per 10.

WHITE SPRUCE (*Alba Picea*)—A handsome tree of pyramidal, compact form. Very good for mass planting. 12 to 18 inch 75c each, \$6.00 per 10; 18 to 24 inch \$1.25 each, \$10.00 per 10.

AUSTRIAN PINE (*Austriaca*)—A tall, massive tree, with spreading branches and gray bark. Long, stiff very dark green needles. 18 to 24 inch 75c each, \$6.00 per 10; 2 to 3 feet \$1.25 each, \$10.00 per 10.

JACK PINE (*Banksiana*)—A low-growing tree of bushy habit. Very hardy. Foliage bright green. 3 to 4 feet \$1.50 each, \$12.50 per 10; 4 to 5 feet \$2.50 each, \$20.00 per 10.

SCOTCH PINE (*Sylvestris*)—One of the hardiest of the Pines. Dense growth with bluish green foliage. 18 to 24 inch 75c each, \$6.00 per 10; 2 to 3 feet \$1.25 each, \$10.00 per 10.

MUGHO PINE (*Pinus Mughus*)—A low spreading Pine, very useful in lawn planting. Stout, bright green needles of medium length. 12 to 15 inch \$1.50 each, \$12.50 per 10; 15 to 18 inch \$2.00 each, \$17.50 per 10.

OLD FIELD PINE (Native Yellow Pine)—A tall, handsome tree with slender, pendulous branches forming an oval crown. Needles long and stiff, dark green. Dull brown cones. 3 to 4 feet 75c each, \$6.00 per 10; 4 to 5 feet \$1.25 each, \$10.00 per 10.

RED PINE (*Resinosa*)—Also known as Norway Pine. A very ornamental tree. Needles are long and soft; a good green color. 12 to 18 inch 40c each, \$3.00 per 10; 18 to 24 inch 50c each, \$4.00 per 10.

GOLDEN PLUMED CYPRESS (*Retinosporo Plumosa Aurea*)—Golden green, feathery foliage. Should be kept sheared for best results. Pyramidal in habit of growth.

PLUMOSA GREEN—Very much the same as the Golden Plumosa, only that the foliage is a bright green.

PISIFERA AUREA (Golden Sawara Cypress)—Pyramid shape; foliage bluish green, with gold-tipped branches. Very hardy.

Prices above varieties: 2 to 3 feet \$1.25 each, \$10.00 per 10; 3 to 4 feet \$2.00 each, \$15.00 per 10.

VEITCH'S SILVER CYPRESS (*Squarrosa Veitchi*)—Very showy type, silvery blue-green foliage. Valuable for its beautiful coloring. 18 to 24 inch \$1.50 each, \$12.50 per 10; 2 to 3 feet \$2.50 each, \$20.00 per 10.

Colorado Blue Spruce

AMERICAN ARBOR VITAE (*Thuya Occidentalis*)—Very popular for its easiness to transplant. Conical in shape, fairly compact and light green color. 12 to 18 inch 50c each, \$4.00 per 10; 18 to 24 inch 75c each, \$6.00 per 10.

AUREA (George Peabody's Golden Arbor Vitae)—A broad, low-growing evergreen. New growth of yellow or golden color. Compact. 18 to 24 inch \$2.00 each, \$17.50 per 10; 24 to 30 inch \$3.00 each, \$25.00 per 10.

AUREA CONSPICUA—Tall and upright; foliage deep yellow to golden, often varying to green. Very compact. 15 to 18 inch 50c each, \$4.00 per 10; 18 to 24 inch 75c each, \$6.00 per 10.

BERKMAN'S GOLDEN ARBOR VITAE (*Aurea Nana*)—Of dense, compact form; beautiful golden color. Dwarf type, valuable for foregrounds and edging. 12 to 18 inch 75c each, \$6.50 per 10; 18 to 24 inch \$1.25 each, \$10.00 per 10.

BIOTA BONITA—Similar to the dwarf Golden in habit of growth, but a good solid green in color. 12 to 18 inch \$1.00 each, \$8.00 per 10; 18 to 24 inch \$1.50 each, \$12.50 per 10.

CHINESE ARBOR VITAE (*Orientalis*)—Very much like the American Arbor Vitae, but more open in growth, a very rank grower. Dark green foliage. Can be used in mass planting, or used for specimens. 12 to 18 inch 35c each, \$2.50 per 10; 18 to 24 inch 50c each, \$4.00 per 10.

COMPACT ARBOR VITAE (*Compacta*)—Broad and conical shape in growth. Dense, compact, light green foliage. 12 to 18 inch 65c each, \$5.00 per 10; 18 to 24 inch 85c each, \$7.50 per 10.

GLOBE ARBOR VITAE (*Globosa*)—A perfect globe when well grown, the spread usually equalling the height. Foliage of light green. 12 to 15 inch 75c each, \$6.50 per 10; 15 to 18 inch \$1.25 each, \$10.00 per 10.

HOVEY'S ARBOR VITAE (*Hoveyi*)—Very useful and popular for porch boxes, or foundation planting. Yellow-green foliage; dense. 18 to 24 inch \$1.00 each, \$8.00 per 10; 24 to 30 inch \$2.00 each, \$17.50 per 10.

WAREANA ARBOR VITAE—Of low-growing pyramidal shape, rather broad, with heavy bluish green foliage. Hardy and very desirable. 18 to 24 inch \$1.50 each, \$12.50 per 10; 24 to 30 inch \$2.00 each, \$15.00 per 10.

Evergreen planting

PYRAMIDAL ARBOR VITAE (*Pyramidalis*)—A densely columnar type, compact and erect. Foliage a deep green. Invaluable for the striking effect when planted to center groups or in pairs at entrances. 18 to 24 inch \$1.00 each, \$8.00 per 10; 24 to 30 inch \$1.50 each, \$12.50 per 10.

HEMLOCK SPRUCE (*Tsuga Canadensis*) — A broadly pyramidal, medium-sized tree of dense growth, with rich green foliage and drooping branches. It is excellent as a single lawn tree, or for hedge purposes. It is a beautiful soft green the year around. 12 to 15 inch \$1.00 each, \$8.00 per 10; 15 to 18 inch \$1.25 each, \$10.00 per 10.

Broad-Leaved Evergreens

Lend Beauty Both with Bloom and Luxuriant Evergreen Foliage

Nandina Domestica

ABELIA GRANDIFLORA—One of the most attractive and most popular of the Broad-leaved Evergreens. We cannot recommend it too highly. Foliage small, dark green and glossy, borne on graceful, arching branches, which show a distinct red color. Small, bell-shaped white flowers, tinged with pink. Well adapted for hedging. 12 to 18 inch 25c each, \$2.00 per 10, \$10.00 per 100; 18 to 24 inch 35c each, \$3.00 per 10, \$15.00 per 100.

If wanted balled and burlapped, please send 15c extra per plant.

AMOENA AZALEA—One of the dwarf-growing varieties. Beautiful pink blooms borne in great profusion in May. Foliage rich bronze in winter. 10 to 12 inch B&B \$1.50 each, \$12.50 per 10; 12 to 15 inch B&B \$2.00 each, \$17.50 per 10.

HINODEGIRI AZALEA—A hardy, early-blooming Japanese Azalea of dwarf, compact habit of growth. Bright carmine flowers in profusion in early spring that almost hide the foliage, which assumes a reddish appearance in the fall. 10 to 12 inch B&B \$2.00 each, \$18.00 per 10; 12 to 15 inch B&B \$2.50 each, \$22.50 per 10.

BOXWOOD (*Buxus Sempervirens*)—Tall growing, the type most commonly seen in old-fashioned hedges, or can be used as individual, specimen plantings. The leaves are small, round, glossy green. Can be trimmed to any shape. 12 to 15 inch 85c each, \$7.50 per 10; 15 to 18 inch \$1.25 each, \$10.00 per 10.

All evergreens will be carefully dug with ball of earth about the root and tightly sewed in burlap and will stand transportation and transplanting with little risk of loss. In planting it is not necessary to remove the burlap, just cut the strings, so that the burlap will not hold the roots so closely.

Please do not overlook the fact that evergreen trees dug with a proper sized ball of earth are very heavy compared to their size, and must be packed for safety in strong heavy boxes. This makes express charges on long hauls often more than the cost of the trees. It is important, therefore, that you should state definitely how to ship.

BOXWOOD (*Buxus Suffruticosa*)—This is the very dwarf evergreen plant so highly esteemed for small hedges; for edging the borders of flower beds or for planting along walks. Retains its dwarf size, never growing tall. 8 to 10 inch 90c each, \$8.00 per 10; 10 to 12 inch \$1.10 each, \$10.00 per 10.

CAPE JASMINE (*Gardenia Florida*)—This beautiful flowering shrub has always been very popular. The double, waxlike flowers, which are exquisitely fragrant, are greatly in demand as button-hole bouquets. 12 to 18 inch 50c each, \$4.00 per 10; 18 to 24 inch 75c each, \$6.00 per 10.

COTONEASTER HORIZONTALIS (Rock Cotoneaster)—A low-growing shrub with almost horizontal branches. Leaves dark green, flowers pinkish white, fruit red. 12 to 18 inch 75c each, \$5.00 per 10; 18 to 24 inch \$1.00 each, \$8.00 per 10.

EUONYMUS JAPONICUS (Evergreen Euonymus)—An upright tall-growing shrub, with smooth, slightly quadrangular or striped branches; leaves dark, shiny green. Fine plant for the lawn and succeeds in almost any situation. 12 to 18 inch 50c each, \$4.00 per 10; 18 to 24 inch 75c each, \$6.00 per 10.

EUONYMUS—Beautiful for ground covering; broad, dark green, glossy leaves. Healthy, strong grower. Two year plants 35c each, \$2.50 per 10.

AMERICAN HOLLY (*Ilex Opaca*)—A beautiful evergreen tree, with glossy, irregular-shaped leaves and bright red berries, familiarly known as Christmas Holly. It is quite hardy and adapts itself to varied soil conditions. 18 to 24 inch \$1.00 each, \$7.50 per 10; 2 to 3 feet \$1.50 each, \$12.50 per 10.

MOUNTAIN LAUREL (*Kalmia Latifolia*)—A native evergreen shrub with rich green foliage and bearing in early summer large clusters of wonderfully beautiful pink and white flowers, in the greatest profusion. It is perfectly hardy and succeeds in many different climates. 12 to 18 inch \$1.00 each, \$7.50 per 10; 18 to 24 inch \$1.50 each, \$12.50 per 10.

Cotoneaster

JAPANESE PRIVET—A very rapid-growing upright shrub with thick, dark green foliage. The showy, fragrant white flowers borne in plumes, are followed by clusters of blue-black berries. 18 to 24 inch 40c each, \$3.50 per 10; 2 to 3 feet 65c each, \$5.00 per 10.

LUCIDUM PRIVET—A broad-leaved evergreen shrub of compact growth. Highly recommended, grows in almost any kind of soil. Desirable for foundation and border planting. 12 to 18 inch 75c each, \$5.00 per 10; 18 to 24 inch \$1.00 each, \$7.50 per 10.

NEPAUL'S PRIVET—A medium size shrub, very essential when planted in masses or groups. Resembles the Japanese Privet, but more compact. 12 to 18 inch \$1.00 each, \$7.50 per 10; 18 to 24 inch \$1.50 each, \$12.50 per 10.

CHERRY LAUREL (*Laurocerasus Caroliniana*)—One of the most beautiful broad-leaved evergreens. Glistening green foliage of medium shade. Very desirable as a single specimen or for grouping. Upright growth; can be trimmed to any desired form and kept at any height. 2 to 3 feet \$1.00 each, \$8.00 per 10; 3 to 4 feet \$1.50 each, \$12.50 per 10.

MAGNOLIA GRANDIFLORA (Southern Magnolia)—The grandest of all our native evergreen trees. Nothing more conspicuous can be seen among evergreens when its enormous, fragrant white flowers are fully expanded. 18 to 24 inch 75c each, \$6.00 per 10; 2 to 3 feet \$1.00 each, \$8.00 per 10.

MAHONIA AQUIFOLIA (Oregon Holly)—Dense, low, spreading shrub, beautiful holly-like foliage, glossy green, bluish purple and bronze. Yellow blossoms followed by blue, grapelike berries. 12 to 15 inch \$1.00 each, \$7.50 per 10; 15 to 18 inch \$1.50 each, \$12.50 per 10.

NANDINA DOMESTICA—A beautiful, upright-growing shrub, with numerous reed-like stems springing from the same root. Leaves deep, glossy green, when young tinged with red; in winter coppery tones are assumed. White flowers are followed by masses of bright red berries which are retained all winter. Extensively used in landscaping. 15 to 18 inch 75c each, \$5.00 per 10; 18 to 24 inch \$1.00 each, \$8.00 per 10.

RHODODENDRON CAROLINUM—The most beautiful of the native Rhododendrons. Produce in early May a wealth of unusually large, rose-pink flowers in good sized clusters.

Rhododendron Maximum

RHODODENDRON CATAWBA—Valuable for its handsome foliage and gorgeous blooms of lilac-purple.

RHODODENDRON MAXIMUM—Strongly recommended for mass planting. Bears large clusters of pinkish-white flowers in June.

Prices all varieties Rhododendron: 12 to 18 inch \$1.00 each, \$8.00 per 10; 18 to 24 inch \$1.50 each, \$12.50 per 10.

All of the above evergreens are Balled and Burlapped unless otherwise specified.

Hardy Ornamental Vines

Beautiful coverings for walls, verandas, or for screening harsh outlines, lending great charm to barren surfaces and furnishing shade.

BOSTON IVY (*Ampelopsis Veitchii*)—Used for covering walls, as it will cling to the smoothest surface. Foliage turns to brilliant orange and crimson in the fall.

ENGLISH IVY (*Hedera Helix*)—This variety favors shady locations. Fine for the South, but hardy only as a ground cover where the winter is too severe. Prices Boston and English Ivy: Medium 25c each, \$2.00 per 10; Two year transplanted 35c each, \$3.00 per 10.

VIRGINIA CREEPER (*Ampelopsis Quinquefolia*)—Has large, deeply cut leaves that turn crimson in autumn. Very rapid grower. Two year transplanted 20c each, \$1.50 per 10; Three year transplanted 35c each, \$3.00 per 10.

ARISTOLOCHIA TOMENTOSA (Dutchman's Pipe Vine)—Yellowish, pipe-shaped flowers. Makes a perfect screen for porches. Two year transplanted 35c each, \$3.00 per 10.

BIGNONIA RADICANS (Trumpet Vine)—A native, strong climbing vine, with good leaves and scarlet, trumpet-shaped flowers. Two year 35c each, \$3.00 per 10.

CELASTRUS SCANDENS (American Bittersweet)—Handsome, glossy foliage and large clusters of beautiful orange-crimson fruits, which hang on all winter. One year 25c each, \$2.00 per 10; Two year transplanted 35c each, \$3.00 per 10.

CLEMATIS PANICULATA (Japanese Clematis)—Small creamy white, star-shaped flowers in wild profusion, which are very fragrant. Two year transplanted 35c each, \$3.00 per 10.

Boston Ivy

Wisteria Magnificia

CLEMATIS VIRGINIANA (Wild Clematis)—Very hardy. Flowers are white, borne in leafy panicles. Two year transplanted 25c each, \$2.00 per 10.

CLEMATIS JACKMANNI—Beautiful velvety-purple blossoms. Extremely free flowering.

MADAME EDOUARD ANDRE CLEMATIS—This is often times called the crimson Jackmanni. Strong, vigorous grower.

HENRYI CLEMATIS—Immense, pure white single flowers. The finest of the large flowering Clematis. Two year 50c each, \$4.00 per 10, above varieties.

HALL'S JAPAN HONEYSUCKLE (Lonicera Halliana)—This vine will grow under any condition. Dark green foliage, almost evergreen, with an abundance of white flowers, changing to yellow, which are very fragrant. Medium 15c each, \$1.00 per 10, \$8.00 per 100; One year No. 1 transplanted 25c each, \$2.00 per 10, \$12.00 per 100.

SCARLET TRUMPET HONEYSUCKLE (Lonicera Sempervirens)—An exceptionally hardy vine and fine bloomer. Blossoms bright scarlet, trumpet-shaped, with rich, dark green leaves. Two year transplanted 20c each, \$1.50 per 10, \$10.00 per 100; Three year transplanted 30c each, \$2.50 per 10, \$16.00 per 100.

PACHYSANDRA (Japanese Spurge)—A very useful ground cover for shady locations. Bright green leaves, greenish white flowers. One year 25c each, \$2.00 per 10; Two year 50c each, \$4.00 per 10.

KUDZU VINE (Pueraria Thunbergiana)—Makes the most marvelous growth of any vine, its large leaves making dense shade. The flowers are rosy purple. One year seedlings 10c each, 75c per 10, \$5.00 per 100; Two year transplanted 15c each, \$1.00 per 10, \$7.50 per 100.

TECOMA RADICANS (American Trumpet Vine)—Very high climbing vine, with spreading branches. Leaves dark green; flowers orange red within, scarlet without. One year 25c each, \$2.00 per 10; Two year 35c each, \$3.00 per 10.

VINCA MINOR (Common Periwinkle)—Hardy, trailing plant valuable for covering ground in

deep shade; shining evergreen foliage and lilac-blue flowers. Small clumps 20c each, \$1.50 per 10, \$10.00 per 100; Large clumps 30c each, \$2.50 per 10, \$20.00 per 100.

WISTERIA—Especially ornamental in early summer with their large, drooping clusters of fragrant blooms. We have the CHINESE WHITE and CHINESE PURPLE in extra strong plants. Two year transplanted 25c each, \$2.00 per 10; Three year transplanted 40c each, \$3.50 per 10.

WISTERIA MAGNIFICA (Common Purple Wisteria)—Blossoms in May. An unusual variety with immense clusters of large flowers, lavender colored. Two year transplanted 25c each, \$2.00 per 10; Three year transplanted 40c each, \$3.50 per 10.

VITIS AESTIVALIS (Summer Grape)—Not planted for fruit, but for the ornamental value of its handsome foliage, distinguished by the reddish fuzz on the under side.

VITIS CORDIFOLIA (Frost Grape)—Vigorous growing vine with bright green foliage, and purplish black berries that ripen and hang on until frost.

VITIS LABRUSCA (Fox Grape)—Strong, rapid growing, with large, thick leaves and purplish black berries that change to a reddish brown.

VITIS ROTUNDIFOLIA (Muscadine Grape)—Vigorous growing vine with heavy, showy foliage. Fruit very large berries and bronze color when fully ripe. Flesh pulpy, sweet with musky flavor; quality unexcelled. Two year 30c each, \$2.50 per 10, all varieties grapes.

GRAB BAG SPECIALS

Choose Your Own Collection

All plants listed below are first-class stock, choice varieties. We have just assembled them together in piggly-wiggly fashion for your convenience.

We cannot accept orders amounting to less than \$1.00 made up from this list, as the cost of handling would be too great on smaller orders. Please add 15 per cent of total amount of order for postage, if order is not large enough to be shipped economically by express.

ROSES, The Glory of the Garden

The American home is hardly complete without its rose garden; the rose is truly the Queen of Flowers. No other flowering plant or shrub can compare with the rose in its delicate shades of color. Start a rose garden of your own; the pleasant recreation of caring for your plants and watching them grow and develop into wonderfully beautiful flowers will many times repay you for the cost. Select half a dozen—a dozen, or as many as will be needed to plant a garden.

RED

FRANCIS SCOTT KEY—An outstanding American variety; extremely large bloom of a rich, crimson-red; full, very double. Fine foliage and decidedly hardy. Named for writer of "Star Spangled Banner."

GENERAL JACQUEMINOT—One of the most popular of the red roses; brilliant crimson, large and very effective. Very fragrant and one of the hardiest.

GRUSS AN TEPLITZ—Brightest red of all roses, a rich scarlet with crimson shading; deliciously fragrant. Hardy, vigorous grower. Blooms from early June until frost.

RED RADIANCE—The color is a splendid even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer, being constantly in flower from early spring until freezing weather.

HADLEY—Deep rich, velvety crimson. Well formed buds on long stiff stems. Very fragrant; free producer of flowers.

SENSATION—Handsome buds, large blooms of very deep blackish maroon; very fragrant. Almost thornless. Healthy foliage. Undoubtedly the finest of the dark roses.

WHITE

FRAU KARL DRUSCHKI—White American Beauty. This is deservedly one of the most popular roses grown; flowers pure white, perfect in form, very free bloomer. Strong grower, perfectly hardy everywhere. A truly magnificent rose.

MRS. DUDLEY CROSS—Beautiful creamy white with petals delicately edged with pink, rosy yellow at the center; full and double flowers. Strong, vigorous grower.

BESSIE BROWN—Very large blooms, creamy white tinged with pink and very fragrant. An old favorite.

KILLARNEY WHITE—Very long pointed buds of the original Killarney form, but snowy white. This rose is among the best pure white garden roses.

Pink Radiance

Gruss an Teplitz

WILLIAM R. SMITH—Flowers are freely produced, creamy white with strong tints of pink. A vigorous, dependable rose. Free blooming all season.

KAISERIN AUGUSTA VICTORIA—Pure white, does not pink when planted out; splendid, large buds and superb, full double blooms, making the choicest cut flowers. A most sturdy grower, blooming steadily until late frost.

PINK

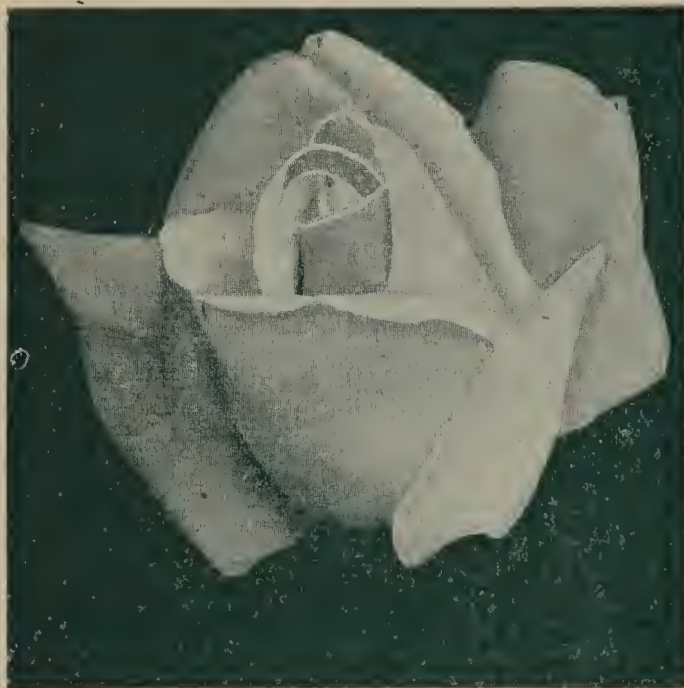

KILLARNEY, or The Irish Beauty—Brilliant sparkling pink with large, pointed buds, broad, wax-like petals with silvery edges and enormous semi-full flowers of exceeding beauty.

WILLOWMERE—A splendid coral-red color, suffused with carmine, and opens to a large full handsome flower of a rich shrimp pink, shaded yellow in the center.

JONKHEER J. L. MOCK—Clear imperial pink, reverse of petals rosy, silvery white; blooms of magnificent size and form produced freely on stiff, erect canes.

LOS ANGELES—A rose of unusual beauty of coloring, being a luminous flame-pink toned with coral and shaded with translucent gold at the base of the petals. The flowers are perfect in form and borne erect on strong branching stems. Growth is very vigorous and the long, pointed buds are exquisite for cutting.

PINK RADIANCE—Charming in every particular; healthy growing, fine color and freedom of bloom. In color of flower it is both unique and beautiful—a bright rose with opal and coppery reflections. Hardy everywhere with protection. As its name suggests, it is radiantly beautiful.

Marechal Neil

MRS. CHAS. BELL—The shell-pink Radiance, with an exquisite salmon background. Hardy, steady bloomer, and should be in every garden.

DAME EDITH HELEN—The supreme pink ever-blooming rose of the age. Large, full double blooms of glowing pink, delightfully fragrant, that are superb in the garden or in bouquets.

COLUMBIA—Popular greenhouse variety which does well outdoors, producing long-stemmed pointed flowers of vivid pink throughout the entire season; very fragrant.

PAUL NEYRON—The largest rose in cultivation, sometimes called the Peony Rose. Color light, smoky rose; flowers are very double and full, delightfully fragrant. The plant makes a strong, healthy growth and has clean, glossy foliage. Blooms two or three times a year.

YELLOW

SUNBURST—Orange-copper or golden orange; all intense shades, giving an extremely brilliant effect. A giant rose, long stems, long pointed buds; vigorous and healthy.

LADY HILLINGTON—Deep apricot yellow to orange; long pointed buds; a free-flowering forcer and a striking decorative rose. Awarded Gold Medal of National Rose Society.

LOUXEMBOURG—Long, pointed buds of beautiful bronze-yellow, and very fragrant. One of the best yellows for your rose garden.

MRS. AARON WARD—Low, bushy plants with pointed, holly-like foliage and fine fawn-colored buds and open blooms. Has been popular for many years and is still in great demand.

Any of the above hardy bush roses, two year old, 40 cents each; \$4.00 per dozen.

OUR ROSE SPECIALTIES

PRESIDENT HERBERT HOOVER—The outstanding novelty rose recently introduced. Large flowers of very charming combination of cerise-pink, flame and yellow, with broad, thick petals; very fragrant. Remarkably vigorous grower with clean handsome foliage. Very profuse bloomer.

TALISMAN—A novel production and perhaps the highest colored of all roses. Rich shadings and blending of orange, scarlet and gold. Beautiful cup-shaped buds, and full flowers with appealing fragrance. Very free bloomer.

SOUVENIR DE CLAUDIUS PERNET—Very large, full flowers with long deep petals of the most striking sunflower yellow, deeper in the center. Blooms early and late. When it becomes established in your garden, its growth is strong and vigorous. It is not easy to get started, for like all yellow roses, it requires pampering, but is worth your greatest efforts.

JOANNA HILL—A gorgeous new yellow rose—long, pointed buds of perfect form, opening into large, exquisite flowers of clear yellow with orange-yellow heart. Ideal blooms for cutting, as they last an unusually long time.

MARECHAL NEIL (Climbing)—Long known as the finest yellow rose in the world, a model of beauty and fragrance. Lovely buds and flowers of deep, golden yellow. Strong growth and abundant bloom. Succeeds in the South with ordinary care, but needs winter protection.

Prices, two year plants 50 cents each; \$5.00 per dozen.

CLIMBING ROSES

MARY WALLACE—The outstanding large-flowered pink climber. Very brilliant and invariably satisfactory. Growth is enormous and rapid and the long stemmed blooms make good cut flowers.

PAUL'S SCARLET CLIMBER—The most popular red-flowered climber of the day. Flowers large, well-shaped, vivid scarlet-red.

GARDENIA—One of the strongest growers, with beautiful glossy foliage. Buds rich creamy yellow and open flowers yellow at first, fading to cream.

DR. W. VAN FLEET—Large clusters of exquisite pale pink on fine, long stems. Extremely vigorous, and has marvelously fine foliage. One of the most popular of all climbers.

DOROTHY PERKINS—Pink Rambler. Graceful, twining growth of great vigor. Flowers soft, shell-pink, small crinkly, in great clusters.

CLIMBING AMERICAN BEAUTY—Extremely beautiful large buds and flowers of deep pink or crimson.

CLIMBING GRUSS AN TEPLITZ—Vigorous, branching grower, bearing continually bright crimson flowers.

Prices on above climbers 30 cents each, \$3.00 per dozen.

Dorothy Perkins

HARDY FERNS

These are very useful for growing close to houses and in corners which are too shady for other plants. Most ferns do well in a light soil containing much vegetable matter, and it is always best to work a considerable amount of leaf mould into the soil of a fern bed.

MAIDEN HAIR FERN—A graceful species, with large deciduous leaves, very dark chestnut-brown stipes radically forked at the summit. Grows 10 to 15 inches high. Small roots 40 cents per dozen; \$3.00 per hundred.

HAY-SCENTED FERN—Has thin and delicate leaves, from one to three feet long. Stipes clustered; pale green and sweet scented.

CINNAMON FERN—Stately fern with very large, creeping root stocks. Bright green with pinnatifid divisions, growing 3 to 5 feet tall.

ROYAL FERN—Vigorous fern with good stout root stocks. Fronds will measure a foot or more wide, growing 2 to 5 feet tall.

CHRISTMAS FERN—Beautiful evergreen fern with densely chaffy stipes. Leaves deep green with numerous pinnae, 1 to 2 feet long.

Price, small clumps, above varieties, 3 for 25c; 75c per dozen.

ORNAMENTAL GRASSES

These beautiful grasses can be used with telling effect in borders, large beds or by the margins of ponds and lakes. They are easy of cultivation and perfectly hardy.

EULALIA GRACILLIMA UNIYITTATA (Japan Rush)—Very graceful habit with long, narrow bright green foliage, with silvery mid-rib.

EULALIA DWARF VARIEGATA—Very ornamental, long, narrow leaves striped green, white and often pink or yellow.

Price, 25 cents per clump; 5 for \$1.00.

TULIPS

There are no bulbs which make such a rich and gorgeous display of blossoms with so little care and cultivation as do Tulips. Their early blooming, pretty cup-like flowers, gay colors, and brilliant effects make them spring favorites. They can be cultivated very easily, only requiring good, common garden soil to grow them to perfection. Set out any time after September 1st till ground freezes too hard, 4 inches apart. After being once started, Tulips will continue to bloom every spring without further attention.

PAPER WHITE NARCISSUS

These have been favorites for ages as a decoration for the living room during the coldest winter months when flowers are scarce. Their culture is simple; plant bulbs in shallow bowls filled with pebbles and water. Keep in the dark until roots form (about 2 weeks) then bring into light. Large size bulbs, 50c per dozen, medium size, 35c per doz.

CROCUS

Crocus, among the earliest bulbs to flower, are most effective when planted in masses on the lawn, or arranged in rows in the border. They are perfectly hardy, and may be left in the ground for three or four years after planting without being disturbed.

Purplea Grandiflora—Deep purple-blue.

Striped Queen—Lavender stripes, white ground.

Yellow Mammoth—Deep yellow.

Prices on above varieties, 40c per doz., \$3.00 per 100.

Darwin Tulips

DARWIN TULIPS

BARONNE DE LA TONNAYE—Bright pink, margined blush rose.

BARTIGON—Fiery crimson with light base; large flower, very beautiful.

CLARA BUTT—Beautiful salmon-pink; one of the most popular pink sorts.

WHITE QUEEN—Lovely soft white, slightly tinged pink.

FARNCOMBE SANDERS—Brilliant red with light base; very large flower.

LA TULIPE NOIRE—Dark red Tulip.

PRIDE OF HAARLEM—Deep rose-red with blue base.

WILLIAM COPELAND—Rose-lilac; pleasing color and one of the best.

REV. H. EWBANK—Deep lavender with lighter tint at the edge.

SCARLET BEAUTY—Intense glowing scarlet without any markings.

PRINCESS ELIZABETH—Rich, soft rose, shaded lighter at the edge.

INGLESCOMBE YELLOW—Clear, canary-yellow; very effective.

Prices on above varieties, 40 cents per dozen; \$3.00 per hundred.

HYACINTHS

These early spring flowers not only make a brilliant show in the garden, but most of them may be grown for winter flowers in the house, making it possible to enjoy their fragrant spikes of color for many months. Plant in fall. For indoor blooming, pot up in fall and keep in cool, dark place until roots are well grown before bringing to light and heat.

GERTRUDE—A bright rosy pink, on large upright spikes.

LA VICTOIRE—Brilliant, crimson-scarlet.

L'INNOCENCE—Pure white; single.

KING OF THE BLUES—Rich dark blue; single flower.

YELLOW HAMMER—Best pure yellow, single.

PRESIDENT ROOSEVELT—Bright pink; large and double.

LA GRANDESSE—Extra fine, pure white; very double.

BLOKSBERG—Bright porcelain blue; double.

GOETHE—Light yellow. One of the best double.

Prices on above varieties 10 cents each; \$1.00 per dozen.

Crocus

Regal Lily

LILIES

None of the fall-planting bulbs afford quite so much pleasure as the Lilies. Rich and varied in color, stately and handsome in habit, they stand out prominently from all other hardy plants. They require but little attention and really should not be disturbed for several years.

DAY LILY—Flowers large, rich golden yellow, marked with Indian yellow. 40 cents per dozen; \$3.00 per hundred.

LEMON LILY—Fragrant, clear yellow. Very freely produced in early summer. 10 cents each; 75 cents per dozen.

TAWNY DAY LILY—Flowers tawny orange with wavy margined petals. 40 cents per dozen; \$3.00 per 100.

REGAL LILY—One of the most beautiful Lilies. Flowers are white, slightly suffused with pink, with a beautiful glow of canary-yellow at center. Its perfume is exquisite. 15c each; \$1.50 per dozen.

TIGER LILY—Deep orange-red flowers, spotted with black, purplish spots; borne in many clusters. 10c each, 90c per dozen.

SPIDER LILY—An entirely distinct species of mid-summer flowering Lily. They should be in every garden. The large snow-white flowers are very suggestive of the name. 75c per dozen; \$5.00 per 100.

SPECIOSUM LILY—A vigorous variety. Rich carmine on white ground with crimson spots. 20c each; \$2.00 per dozen.

LILY OF THE VALLEY—This variety loves the shade and thrives best in rich soil. Flowers pure white, bell-shaped and very fragrant. Glossy green leaves that partially enfold the blossoms. \$1.00 per dozen; \$7.00 per 100.

PEONIES

There is no flower more beautiful than the Peony, and as it comes back stronger and blooms more profusely each year, every flower lover should have a few Peony plants. Although very hardy and easily grown, the Peony prefers a good, deep soil, in a rather moist, yet sunny location. Plant the roots so that the eyes are about 2 to 3 inches under the surface. Plant in the fall. We offer Peonies in color. Red, White or Pink, 25 cents each, 3 for 60c; \$2.00 per dozen.

DAHLIAS

Dahlias produce a wealth of color and bloom during the fall, unequalled for garden effect or cut flowers. For those who want Dahlias in variety and care little for names, we offer them in mixed lots, at special bargain price of 40c per dozen.

CANNAS

Cannas are still the most magnificent of all summer-blooming plants for brilliant bedding and massing. They are tropical-looking and the rank green foliage and gay flowers make a brilliant sight. Plant about six inches deep in rich, moist soil when weather is warm and settled. We are making a special price on mixed varieties and colors, 5c each; 40c per dozen; \$2.50 per 100.

IRIS

The grand and royal colors of the flowers of these superb, hardy plants are not surpassed by those of any garden subject. They are invaluable, due to their hardiness and easy culture, and for the lavish wealth of blossoms that crown their numerous stems. A sunny location in moist, rich soil is best adapted to their requirements. They will greatly increase in size of clumps each season.

RAINBOW COLLECTION

	Each	Per 100
A good mixture -----	\$.05	\$2.50

YUCCA FILAMENTOSA

Exceedingly good for the rockery. Long, narrow leaves that remain green the entire year. It throws up a long flower stem in the summer 3 or 4 feet high, bearing large spikes of creamy white bell-shaped flowers that retain their beauty for a long time. 15c each, 4 for 50c.

SHASTA DAISIES

Mammoth white flowers, sometimes 3 inches across, with yellow center and borne in profusion in July. Their position in the garden is a shimmering drift of snowy white. 5c each, 40c per dozen, \$2.50 per 100.

COREOPSIS

A profusion of golden yellow flowers on long, graceful stems from early June until frost. Excellent for cutting. Grows 2 feet high. 35c per dozen, \$3.00 per 100.

PHLOX

For brilliant masses of color in the landscape or hardy border, the Phlox ranks supreme. They bloom from July on, at a time when other flowers in the border are comparatively scarce. We have some pleasing varieties, in mixed colors, 20c each, \$1.50 per dozen.

Peonies

Delicious

APPLES

The apple is the first fruit, both in importance and general culture. We are only offering a few of the best varieties that will give you fruit from early June to late fall.

EARLY SUMMER VARIETIES

EARLY HARVEST—Medium to large; bright yellow; tender, juicy, well flavored. An excellent home market apple; invaluable in any orchard.

RED JUNE—An old-time variety of medium size. Deep red skin; white flesh, tender and juicy.

YELLOW TRANSPARENT—Early bearing variety that has proven both popular and profitable. Fruit large and yellow, with crisp, sub-acid flavor.

HORSE—Large, green, acid. Good for cooking and drying.

AUTUMN VARIETIES

GRIMES GOLDEN—A high quality yellow apple of delicious flavor. A favorite in home orchards. Hardy and very productive.

KINNARD'S CHOICE—Large, dark red; resembling the Arkansas Black. Is good for market or table.

JONATHAN—Striped and splashed with dark red; of excellent quality and highly flavored.

WEALTHY—The fruit is a brilliant red, distinctly marked with narrow stripes and splashes of deeper red.

EARLY WINTER VARIETIES

DELICIOUS—Striped and marked with light and dark red. Fruit large, of uniform size, round and long, tapering to a markedly ribbed nose. Tree hardy, bears abundantly.

ROME BEAUTY—Large, round red and juicy. Of a good quality and bears early.

STAYMAN WINESAP—A seedling of Winesap. Improved. Dark, rich red. No apple is being more widely planted.

WINESAP—Medium, dark red; very smooth. Apples juicy and rich, very valuable for both family and market. Trees hardy, and an early and constant bearer.

ARKANSAS BLACK—Fruit medium size, dark red, almost black.

MAIDEN BLUSH—Especially good for cooking. Pale, waxy yellow, crimson blush.

BALDWIN—Known to almost everyone as a good cooking and eating apple, and one that keeps well. Fine for drying.

Plant standard apple trees from 30 to 40 feet each way. At 30 feet apart it takes 48 trees per acre; 40 feet apart it takes 27 trees per acre.

PRICES—on one-year whips:	Per 10	Per 100
18 to 24 in., 1-year whips	\$1.25	\$10.00
2 to 3 ft., 1-year whips	1.75	15.00
3 to 4 ft., 1-year whips	2.50	20.00

The following prices are for strong, two-year trees:

	Each	Per 10	Per 100
3 to 4 ft. 7-16 in. cal.	\$0.40	\$3.00	\$25.00
4 to 5 ft. 9-16 to 11-16 in. cal.	.50	3.50	80.00

PEACHES

The Peach holds a place second only to the apple in the United States. It ripens over a long period and with proper selection of varieties a succession of fruit may be had throughout the summer and early fall. We are offering only a few of the best and tried varieties.

BELLE OF GEORGIA (Free)—A medium season. peach, very large, with a decided blush; firm flesh of delicate flavor. Bears regularly.

CARMAN (Free)—Early. Large, roundish, pale yellow skin, flesh white and sweet. A very hardy and good all round peach. Ripens here about July 1st.

CHAMPION (Free)—Early, ripens last of July. The flesh is delicious, rich and sweet. Skin creamy with red cheeks. Many specimens have measured 10 inches in circumference.

EARLY ELBERTA (Free)—Like the Elberta, but ripens a little earlier.

ELBERTA (Free)—Medium season variety and a standard peach wherever peaches are grown. A large yellow peach shaded with red; yellow flesh. Dependable as a regular and uniform bearer.

HEATH CLING—A clingstone Peach. Very large, creamy white with delicate red blush; flesh white, slightly splashed red at the tip. Ripens in early September.

HILEY (Free)—Early, large, creamy white with red cheek; white flesh and juicy. Ripens about the first of July.

J. H. HALE (Free)—The beautiful midseason Peach named for Hale, the Georgia Peach King. Large, round, yellow and nearly covered with red. Very firm flesh and of fine quality.

MAYFLOWER (Free)—One of the earliest Peaches. Red all over. Tree a strong grower and heavy bearer.

ROCHESTER (Free)—A wonderful new Peach, originating near Rochester, N. Y. Early, prolific, very hardy. Fruit large, light yellow to orange, with red blush. One of the best.

CRAWFORD'S EARLY (Free)—Large, rather oblong, with yellow skin and yellow flesh.

KRUMMEL (Free)—A freestone peach. Fine flavor; skin yellow with carmine blush.

RED BIRD CLING—Creamy white, nearly covered with red, semi-cling. A fine market Peach.

Prices, all varieties of Peaches:

	Each	Per 10	Per 100
18 to 24 inch	\$0.15	\$1.00	\$7.50
2 to 3 feet	.20	1.50	12.50
3 to 4 feet	.25	2.00	17.50

J. H. Hale

Montmorency Cherries

CHERRIES

Not a case of can you afford them, but a case of you cannot afford to be without them. How the birds and children love cherry time! And where is the man who doesn't relish a big juicy Cherry pie? Truly one of the most popular and healthful of all fruits, how easily the cherry has come to the front and is being more widely planted every year.

SWEET CHERRIES

BLACK TARTARIAN—A favorite sweet cherry. Fruit large and very dark red, almost black when ripe; flesh firm and of delicate flavor. Very high quality. Ripens in June.

GOVERNOR WOOD—Fruit large, yellow, nearly covered with bright red berries; immediately after the Black Tartarian.

NAPOLEON—An ideal, light colored sweet Cherry. Good for shipping purposes. Very attractive coloring of pale yellow, with amber cheek. Fruit large, heart-shaped; flesh firm and of delightful flavor.

SOUR CHERRIES

EARLY RICHMOND—Very early sour Cherry: very popular. Bright red. Hardy and grows to a compact tree.

MONTMORENCY—A well known hardy and productive cherry. The fruit is much larger than that of the Early Richmond and is slightly acid. Bright red; ripens in early July.

Prices, all varieties of Cherries: 2 to 3 feet 30c each, \$2.50 per 10, \$17.50 per 100; 3 to 4 feet 35c each, \$3.00 per 10, \$25.00 per 100.

PEARS

The growing of this valuable fruit both for home and market purposes cannot be too strongly urged. Pears bear early. The three varieties we list are the really worth while kinds.

BARTLETT—Golden yellow with red cheek, fine grained, melting, of delicious quality. Bears when very young. Best known and a great favorite.

GARBER—Fruit large, resembling the Keiffer but ripens two or three weeks earlier. Tree free from blight, very productive.

KIEFFER—This is the most popular variety for market; excellent for canning and cooking. Good bearer and the fruit keeps well into the winter.

Prices, all varieties of Pears: 3 to 4 feet, 1-year whips, 25c each, \$2.00 per 10, \$18.00 per 100, 4 to 5 feet, 1-year whips 35c, \$3.00 per 10, \$27.50 per 100.

PLUMS

The market demand for high grade plums is almost unlimited and for dessert, cooking and canning, no fruit is more delicious.

ABUNDANCE—One of the largest, best and hardiest of the Japanese Plums. Pale amber, turning to red; yellow sweet flesh.

BURBANK—Large, deep red, with yellow flesh; juicy and sweet; tree vigorous and strong. Another of the Japanese varieties.

RED JUNE—Japanese. Skin garnet-red; flesh light yellow, somewhat meaty; sweet, good; season early, ripens a week or so before the Abundance. Tree large, vigorous, spreading, hardy and productive.

KELSEY'S JAPAN—Size large, heart-shaped, long pointed. Color greenish yellow, sometimes flushed with red. Prolific and bears while young.

SHROPSHIRE DAMSON—Skin purplish black with thick bloom and numerous dots; flesh golden yellow. Season late; fruits small in size. An old, well known variety.

Prices, all varieties of Plums: 2 to 3 feet 20c each, \$1.50 per 10, \$10.00 per 100; 3 to 4 feet, 7-16 in. to 9-16 in. caliper, 30c each, \$2.50 per 10, \$20.00 per 100.

GERMAN PRUNES

A valuable Plum of fair quality for dessert, but most esteemed for drying and preserving. Large, long-oval, purple, with a thick blue bloom; flesh firm, sweet and pleasant, separating from the stone. One of the oldest varieties; vigorous in growth. 3 to 4 feet 40c each, 3.00 per 10; 4 to 5 feet 50c each, \$4.00 per 10.

ASPARAGUS

One of the finest of early spring vegetables and should be grown in all gardens. We have two good varieties.

PALMETTO—One of the best. Favorite in the South.

WASHINGTON—A new variety, tips tight and firm, stalks large and tender. 1-year roots 25c doz., \$2.00 per 100; 2-year roots 35c doz., \$3.00 per 100.

RHUBARB

PIE PLANT—Easy to grow and delicious for pies and sauces. Supplies early spring tonic, which is usually so much needed. 1-year roots 50c doz., \$3.50 per 100; 2-year roots 75c doz., \$4.00 per 100.

Abundance

PLANT --- Forest Tree Seedlings for Profit, Shade and Beauty

Will you become a member of a tree planting association and assist President Roosevelt reforest our millions of acres of the best tree growing land in the world in the next 3 1-2 years for future generations

That our timber will be gone before we can grow trees cannot be disputed, and to take care of that situation, no farm should be without a grove of Forest Trees. The expense is very small, it pays well in shade and timber, and may man a good estate for your children in years to come.

Place your order now while the stock is plentiful, shipment may be made any time you wish. We have this year larger assortment, better storage and packing sheds, and a strong desire to please you, and hope that you may let us supply your wants in this line. Orders not accepted for less than 50 of one variety.

LOCUST, BLACK OR YELLOW.

Is a rapid growing tree, with showy flowers, thriving in any well drained soil. They are hardy, graceful objects with feathery foliage. There is no better fence post than Locust.

We have lots of nice shade trees, especially White Flowering Dogwoods, Red Bud, American Linden, Hard Maple and Silver Leaf Maple at special prices. Sizes up to ten (10) feet.

BOYD NURSERY COMPANY

McMINNVILLE, TENNESSEE

BOYD NURSERY CO.

[illegible]

GRAPES

The Grape is one of the easiest fruits to grow. There is scarcely a country or city yard or garden so small that space cannot be found to plant one or more Grape Vines. Grapes will thrive anywhere, in any climate or soil. Will do well on soil too poor to raise a crop of grain or other fruit. A Grape vineyard represents a permanent investment that will pay big dividends every year for a lifetime.

RED VARIETIES

BRIGHTON—Bunches medium size; berries large, reddish; skin thin; quality best. Excellent for early table or market. Vigorous.

CATAWBA—Large bunch and berry; deep red, with lilac bloom; juicy vinous, and of musky flavor.

DELAWARE—Compact bunch; berry medium, light red, quality best. Moderate grower, but vine healthy, prolific, and more free from disease than any other variety. The most popular Grape grown. Unsurpassed for table.

LUTIE—Sweet; pulpy; skin tough; quality fair. Hardy and valuable.

BLACK VARIETIES

MOORE'S EARLY—Bunch medium; berry large, round, black, with heavy blue bloom; good quality. Early and desirable.

CAMPBELL'S EARLY—Very large and fine early grape, black; strong, vigorous, hardy vine. Seeds few and small, parting easily from the pulp. Profitable for marketing.

CONCORD—Bunch and berry very large, blue-black; skin thin, cracks easily; flesh sweet, pulpy and tender. One of the most reliable and profitable varieties.

WORDEN—Resembles Concord, but is earlier and larger.

WHITE VARIETIES

NIAGARA—Bunch and berry large; greenish yellow; flesh pulpy, sweet, foxy. Its remarkable size and fine appearance give it much popularity as a market variety. Vigorous and prolific.

POCKLINGTON—Hardy, strong grower; fruit a light golden yellow, clear, juicy and sweet to the center. Ripens with the Concord.

MARTHA—A reliable white grape. Of the Concord type with large, sweet, pulpy berries that are slightly foxy. A sure bearer. Midseason.

Prices, all varieties of Grapes: Two-year No. 1 20c each, \$1.50 per 10, \$10.00 per 100; Two-year No. 2 15c each, \$1.00 per 10, \$7.50 per 100.

Senator Dunlap

STRAWBERRIES

AROMA—Steady producer. Big deep red berries of excellent eating quality.

CHAMPION—A late and heavy bearer of good size berries, dark red and fine flavor.

GANDY—A standard market variety. Fruit firm and of good quality. Excellent for canning.

KLONDIKE—A good berry, rich blood-red in color, having a fine flavor that is neither sweet nor sour.

PREMIER—Extra early. Produces large quantities of good sized attractive berries of excellent quality.

PROGRESSIVE EVERBEARING—The berries are just about the size and color of the Dunlap and produced in great profusion. 50c per dozen; \$2.00 per 100; \$7.50 per 1000.

SENATOR DUNLAP—Fruit very large, mid-season; dark red. Hardy, productive and able to hold its own under any condition. Good for either home use or market.

Prices on above varieties, except Progressive, 75c per 100; \$3.00 per 500; \$5.00 per 1000.

BLACKBERRIES

EARLY HARVEST—Valuable because one of the earliest to ripen; berries medium size and good quality. A strong grower and exceedingly prolific.

SNYDER—Another hardy and productive variety. Fruit early, medium sweet and of good size; no hard core. Well known and desirable.

Prices all varieties Blackberries: Good strong plants 50c per 10, \$3.50 per 100.

RASPBERRIES

COLUMBIAN—Purple berries, very large, juicy and sweet. Favorite canning variety. Bush of strong growth and a heavy bearer.

CUMBERLAND—Black. Early, firm, good size berries of fine quality and hardy, withstanding the cold of the northern states as well as the heat of the south.

ST. REGIS—Everbearing Red. Large, sweet berries of attractive red, producing a good crop in July and continues to fruit all summer. Very profitable, as the late berries command high prices.

LATHAM—A new Red Raspberry, hardy, productive, excellent for garden planting. The best paying late berry, brings top prices on all markets.

Prices, St. Regis and Latham, 75c per 10; \$4.00 per 100. Other varieties 40c per 10; \$3.00 per 100.

GOOSEBERRIES

This fruit is very useful for cooking either green or ripe, and is used for canning extensively. Very profitable, for they are entirely hardy, easy to plant and care for and bring good returns. One or two rows in your garden will supply your family and allow you to sell some.

RED JACKET, 2 year plants 20c each, \$1.50 per 10.
